SHERWIN-WILLIAMS.

Room-by-Room Paint Selection Guide

CHOOSING THE RIGHT PAINTS FOR THE WAY YOU LIVE.

SHERWIN-WILLIAMS®

STEP 1 – Define your room.

Pick one description for each room that best suits your lifestyle.

My Kitchen is:

- Mostly used for meal prep with the occasional game night
- A catch-all, high-traffic hub
- A place to experiment with fresh, fragrant ingredients
- Generally used for special occasions only

My Bathroom is:

- A relaxing retreat with some occasional splashing
- Functional for the whole family, kids and pets included
- Spotless, sparkling and inviting at all times
- A welcoming, luxurious space for guests.

My Living Room is:

- Luxurious, but livable
- Classic and comfortable with a family focus
- Open, airy and always inviting
- Simply refined with an upscale aesthetic

My Bedroom is:

- A tranquil but practical space
- Frequented by rough and tough kids and pets
- Fresh, neat and always ready for guests
- A sophisticated and stylish retreat

STEP 2 – Understand your space.

Follow the COLOR of your answer from STEP 1 to the corresponding room below.

The Chef's Kitchen

In this elegant kitchen, hone your chef skills for family and friends without having to worry about spills and splatters. On these walls, messes from cooking mishaps or muddy shoes won't turn into permanent stains.

The Family-Friendly Kitchen

This high-traffic kitchen is the center of the home, and it is more than a place to cook and eat. The walls need to stand up to more than food splatters: dog food bowls, work shoes and the occasional science experiment.

The Fresh Kitchen

Don't worry about smelling last night's cheddar broccoli medley while eating tonight's sweet onion chicken dish in this adventurous kitchen.

Breathe easy knowing that only the aromas of your newest culinary adventure will make an appearance at your dinner party.

The Showroom Kitchen

Your kitchen isn't just for meal prep, it's for showing off your unique style. This room will impress your visitors, whether you decided to cook or carryout tonight's menu.

The Beautifully Serene Bathroom

This chic space is no match for occasional splashing. Whether it's time for a relaxing bath or the morning rush, this bathroom will always be a calm, stylish retreat.

The Timeless Bathroom

Don't worry about scuffs and splashes in this busy bathroom. It is used by everyone, kids and guests alike, and the walls will look great from book club to bath time.

The Sparkling Clean Bathroom

Even if it's the basement bathroom, it won't have mold or mildew on the walls. This fresh, sparkling clean space always feels clean and inviting.

The Elegant Bathroom

Impress your guests with a luxurious space designed to perfection. Its classic and high-end look will stand the test of time.

The Sophisticated Living Room

Create an inviting, luxurious space that you're proud to show to any guests. Host a dinner party one night and a family movie night the next.

The Cozy Living Room

The last thing you have time to worry about is keeping your family and guests from touching the walls. This main living space is easy to keep clean and inviting without having to stop life from happening.

The Open Air Living Room

This living room is a place to unwind away from the busy world and its harsh environment. It doubles as a relaxing retreat, sometimes even a yoga studio.

The Refined Living Room

The backdrop for your favorite art shouldn't be a second thought when you're entertaining friends and family. They deserve a sophisticated backdrop that will look fabulous even after a busy party.

The Dream-Inducing Master Bedroom

Your bedroom design deserves as much attention as the rest of your home. Spread your impeccable design taste by adding exceptional appearance and durability for an easy night's sleep.

The Rock 'N' Roll Kids' Bedroom

This is truly a place where kids are free to have fun, but you won't have to wonder how you'll clean up after them. Art projects, skateboards or grade-school sleepovers in this bedroom won't damage the walls or stop the paint from looking like new.

The Spacious Spare Bedroom

Offer your guests a fresh space that is inviting no matter how long it has been unused. They'll sleep well in a stylish, clean retreat.

The Secret Hideaway Bedroom

This luxurious bedroom is an extension of your stylish home, not just a space to sleep. Showcase your style and create a space that is elegant and refined.

STEP 3 – Find the paint that’s right for you.

Continue to follow the COLOR of your answers from STEPS 1 and 2 to find your perfect finish.

*Reduces VOC levels from potential sources like carpet, cabinets and fabrics and works to reduce unwanted household odours. The length of time SuperPaint® with Air Purifying Technology Interior Acrylic Latex actively reduces odours and formaldehyde depends on the concentration, the frequency of exposure and the amount of painted surface area.
