

## Manufacturer's Inventory for PVA Drywall Primer and Sealer:

This shall serve as the <u>Manufacturer's Declaration of the Chemical Inventory for the LEED Material</u> <u>Ingredient Reporting credit for the PVA Drywall Primer and Sealer product</u>, manufactured by The Sherwin-Williams Company.

For more information about Sherwin-Williams, please visit: <a href="www.sherwin-williams.com">www.sherwin-williams.com</a>. Or, for more information about the product, please consult its Product Data Sheet available at <a href="www.paintdocs.com">www.paintdocs.com</a>.

## **Description of the PVA Drywall Primer and Sealer product line:**

The PVA Drywall Primer and Sealer product line consists of the product codes below which have corresponding US GHS Classifications for its specific formulation.

Product Name	SW REX Series	US GHS Product Classification	
PVA Drywall Primer and Sealer	B28W08020, B28W08030	CARCINOGENICITY - Category 2	

## **Description of the Manufacturer's Inventory Assessment:**

In this assessment, we have disclosed the chemical content of all ingredients present at >1000 ppm (0.1%) in this product line base formulation, the respective GHS hazards associated with these chemicals, and their function/role. This inventory does not include colorants. It should be noted that this product does not accept colorants as it is a clear gloss coating. In order to protect our confidential business information, specific quantities and CAS numbers are not reported for all chemicals. Additionally, chemicals with the same role have, in some cases, been aggregated into one line item.

When reviewing this document, it is important to consider that the potential hazards of the raw materials may not be relevant in the final, post-reacted product given that materials will often transform, be encapsulated, etc. As such, the information in this document shall not be utilized to make claims regarding product safety and/or to predict risk to end-users.

Information contained in this declaration has been verified by NSF as complying with LEED v4.1 Material Ingredient Reporting – Manufacturer Inventory criteria. Documents containing formula information were provided to NSF that represented each product line so that NSF could ensure accuracy throughout their review. These documents were exclusively shared with NSF to ensure business confidentiality. This information will be updated as necessary as reformulations or changes to GHS classifications occur. Additionally, this document will be internally audited by Sherwin-Williams annually to ensure correctness.

Any questions on this declaration should be sent to sustainability@sherwin.com.
