Dear Mr. Ellis:

Please support the application from the Law Library of Congress for the LAW.GOV domain name. As a large Federal library that collaborates regularly with the Law Library of Congress, we view this as a progressive step in bringing Government information to Americans. Obtaining legal information is often a complex and confusing process and the effort by the Law Library of Congress should be lauded for its leadership and for its commitment to the American people.

We would actively participate with the Law Library of Congress in this endeavor. The vision of a federated resource is an excellent one and one that would be welcomed by the Law Library community as well as by citizens.

Please help us to make this vision a reality. We wholeheartedly endorse the application of the Law Library of Congress. This is our opportunity to create a new service that has value to both the Federal Government and our citizens. To lose this opportunity would be to lose a new and powerful information service.

Sincerely,

Blane K. Dessy  
Director
