Dear Mr. Malamud:

This is just a short note to tell you how supportive we are of the Law.Gov process, which is a series of workshops at major law schools throughout the country with the aim of developing recommendations about how to make all primary legal materials in the United States more readily available.

Providing all citizens with efficient access to government and legal materials is an critical goal. We will be interested to read the final recommendations as to what will be required to create a distributed registry and repository of the nation's primary legal materials.

We thank you for your offer to provide the Commission with a copy of the Law.Gov report and look forward to reviewing it once it is completed

Sincerely,

Jon Leibowitz
Chairman
