ABOUT SARA

Recognizing the growing demand for distance learning opportunities, higher education stakeholders - including state regulators and education leaders, accreditors, the U.S. Department of Education, and institutions - joined together in 2013 to establish the State Authorization Reciprocity Agreements (SARA).

SARA helps expand students' access to educational opportunities and ensures more efficient, consistent, and effective regulation of distance learning programs. SARA is a voluntary agreement among 49 member states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands. The agreement establishes comparable national standards for interstate offerings of postsecondary distance education; participating colleges and universities must adhere to stringent requirements, including accreditation and remaining in good financial standing. To learn more, please visit NC-SARA's website. As of July 2023 nearly 2,400 institutions in 49 member states, the District of Columbia, Puerto Rico, and the U.S. Virgin Islands all voluntarily participate in SARA.

ABOUT NC-SARA

The National Council for State Authorization Reciprocity Agreements (NC-SARA) is a non-profit organization that provides national leadership, in partnership with the four regional compacts, of the State Authorization Reciprocity Agreements (SARA) for distance education regulation across the member states and territories.

NC-SARA helps ensure consistent compliance with distance education rules for state authorization among member states and participating institutions. NC-SARA also works with states, institutions, policymakers, and students to understand the purpose, benefits, and value of SARA.

NC-SARA's mission is:

- To provide broad access to postsecondary education opportunities to students across the country;
- To increase the quality and value of higher learning credentials earned via distance education; and
- To assure students are well served in a rapidly changing education landscape.
