

Commission Member Profile

Natalie Donovan-Flores

Natalie Donovan-Flores is in Natural Gas Operations at Xcel Energy. She has over a decade of horizontal and vertical construction experience starting in workforce housing development in the high country with Brynn Grey Partners / TNB, LLC as an office administrator, moving through the ranks at that time to become the safety coordinator and eventually project manager before moving into her roles in natural gas operations and safety with Xcel Energy.

Natalie is currently in natural gas operations supporting distribution gas and chairs Xcel's natural gas safety group in Colorado. In this role Natalie works closely with subject matter experts across the state to work through a variety of safety topics and best practices to make sure everyone gets to go home the same way they came to work. Natalie also serves on the natural gas apprenticeship committee to work towards making sure every apprentice that goes through Xcel Energy's apprenticeship has all the training and resources they need to be successful operating on our utilities.

Natalie looks forward to serving this commission, and that her unique background and experience can serve the commission and broader public in a meaningful way.
