## Message from the Director

**“SNUAC will be a research institute that produces policy suggestions for pan-Asian region”  
“SNUAC has prepared the basis for stronger research capacities and international proliferation of research accomplishments”**

The years 2020 and 2021 will be recorded as years in which we experienced new crises and changes that mankind had not seen before. The COVID-19 pandemic showed us all how the seemingly natural daily lives were indeed precious. However, we also sought new possibilities in various aspects and witnessed collective responses to crises. SNUAC has held an academic seminar entitled ‘COVID-19, Social Shock and Prospects’ on February 18th, 2020, which was before the pandemic became a serious social threat. Afterward, SNUAC continued to host various academic events and conduct research projects to actively participate in analyzing the social impacts of COVID-19 and its countermeasures. This was possible due to SNUAC’s experience, academic network, and high research capacities of its members that have been accumulated over the last decade.

Since its establishment in 2009, SNUAC has positioned itself as a regional research institute representative of Korea through the devoted efforts of the government, Seoul National University, and the research staff. In 2021, a total of 121 man-days was delivered by our researchers and support personnel. We are proud of the current progress as 17 departments in the university and researchers in diverse fields are participating in joint research projects and faithfully fulfilling our purpose of establishment, which was ‘to tear down walls between disciplines and become a global hub of Asian studies through consilient research’. SNUAC secured an independent building and SNU’s budget for the Cooperation and Integration of Economic and Social Community in East Asia (CORE) project, and in 2020, received funding from the National Research Foundation of Korea’s Humanities Korea Plus (‘Mega-Asia and Asias: Identities, Dynamics, Data-Telling’). The institute thus was able to hire full-time research faculty, strengthening research capacities and preparing the basis for the international proliferation of research accomplishments.

While first ten years since the establishment was a period of collecting resources and building the foundation for the institute, we have now arrived at a point where we must return them to society. As part of such an endeavor, we decided to take upon ourselves the role of a hub that collects the knowledge and information of all regions in Asia, and the responses of countries and people. We aim to concentrate on our current competence in research 1) to perform the role of a hub by fostering local experts through the ASIA Humanities Dissemination Center, and 2) manage and proliferate information on the Asian region through Asia Regional Information Center (ARIC) and Mega-Asia Portal. Moreover, we are functioning as a think tank for Asian regional strategies by 3) publishing Asia Brief every week that caters to the increasing need for systematic research and policy-level responses on the Asian region. Based on these efforts, SNUAC seeks to enrich the Korean life, which is closely related to Asia, and perform the role of suggesting the vision for a new drive for growth.

I send my deepest gratitude to those who have continued to look upon SNUAC with great affection and have provided us generous support. At a time when the importance of Asia is growing both domestically and internationally to be greater than ever, SNUAC will take a leap forward to becoming an advanced institute where all Asian studies researchers can cooperate as subjects to seek out pan-Asiatic suggestions on policy regarding current issues in Asia. We ask for your continued participation and support.

Thank you.

March 2022

Director of SNUAC

*Park, Soo Jin*

## **SNUAC ranked first among the 31 separate research institutes in the field of humanities and social sciences at SNU!**

With the vision of 'building a global hub of Asian studies combining regional and thematic research' and reconsidering the rising roles of Asia and Korea, SNUAC has put in various kinds of efforts. As of 2021, SNUAC has presented the Asian developmental model, the enhancement of quality of Asian life, and sustainable Asian values. Also, the institute has promoted future-oriented knowledge creation through transdisciplinary research and analyzed the emergence and exchanges of people, goods, and ideas in the turbulently changing Asian region. Furthermore, efforts are made for proliferating research accomplishments by collecting and processing various kinds of information produced by countries and regions. SNUAC in 2021 has acquired internal research capacities and distinct outcomes, as well as accomplishing remarkable external growth. After receiving the HK project grant in 2020 from the National Research Foundation of Korea (NRF), the center hired full-time research associates for the first time, maintained independent research space, and faithfully carried out the institute's developmental plan. As a result of its efforts, SNUAC ranked first among all humanities and social sciences institutes at SNU in 2021.

Specifically, SNUAC recorded 13.5 out of 15 points in 1) research institute organization and operation, which was higher compared to 12.3 points from the previous year. In terms of 2) conditions for research, SNUAC received 16.7 out of 20 points, which was improved from 15.3 points in the previous assessment. For 3) research institute activities, SNUAC recorded 45.18 out of 50 points, also a greatly enhanced result compared to 40.54 points from last year. Lastly, SNUAC scored 12.7 out of 15 points for 4) plans for improvement, higher than 11.55 points from 2020. As the final outcome, SNUAC scored 88.08 points out of 100 total and ranked first, outrunning the runner-up research institute with 85.04 points. SNUAC will continue to seek future directions for the institute's sustained development.

## **Deepening and proliferating research on 'Mega-Asia'**

Since May 2020, SNUAC has been leading a Humanities Korea Plus (HK+) research project with the agenda of 'Mega-Asia and Asias: Identities, Dynamics, Data-Telling', supported by the National Research Foundation of Korea. 'Mega-Asia' is a research concept that refers to Asia that is not otherized by the West but configures itself within the flow of change, thus establishing a new perspective and recognition of Asia.

In 2021, various academic activities were carried out for deepening the research on 'Asia Operated in Reality', the specific agenda of the second year of the project. Integrated Cluster Seminar was held twice a month for which the deputy director of the group, HK professors, and HK research professors carried out group research. Research results were shared through the symposium "The Basics of Research on Mega-Asia: Concepts, Perspectives, and Method" and multiple publications. Furthermore, an edited volume entitled Introduction to Research on Mega-Asia will be published in the second half of 2022.

The HK+ Research Project Group takes an approach to Asia as a 'space of imagination' and a 'space of confidence as a vital hub of the global economy', tracing the intimate flows and exchanges of human and material resources by and between Asian regions, thus verifying the 'process of self-configuration' that Asia is experiencing. To this end, diverse projects are underway, other than journal articles, monographs, and academic conferences. First of all, Asia Brief contributes to "exploring the identities of Asian regions and the dynamics in the formation of Mega-Asia", which is one of the specific aims of the HK+ Research Project Group's agenda. Second, the project group operates Mega-Asia Portal to provide reports and analyses related to Asia from various institutions organized by theme and country, so that users can access specific topics and issues about certain countries. With the portal up and running, the project group has accomplished one of the original aims of the project, which is "constructing a knowledge-sharing platform for networking with Asian research institutes". Furthermore, the project group is providing in-depth yet succinct information on a total of 44 countries and capitals to Doopedia, the online encyclopedia serviced by Doosan and linked to the Naver Encyclopedia of Knowledge. By enhancing a better understanding of Asia and providing correct information on major issues about the Asian region and the countries and capitals within, the project group is faithfully fulfilling its social mission.

Through diverse research projects such as those aforementioned, it is the HK+ Research Project Group's ultimate objective to understand multiple identities and diverse regional divisions in an integrated perspective beyond regionalism, thus enabling more insightful analyses of Asia.

## SNUAC's policy brief, Asia Brief

SNUAC founded Asia Brief, a publication that analyzes major current issues of Asia and suggests their implication to policy. With the first issue published on March 8th, 2021, Asia Brief has been greeted by over 70,000 readers online through the SNU email subscription system every Monday morning.

When classifying the 54 articles issued in the past year, we can see that 18 articles were on diplomacy and security, the most popular topic. Topics following closely are culture, economy and trade, and Covid-19 with 6 articles each; science and technology and politics with 5 articles each; and others (society, environment, social media analyses, survey, etc.) with 8 articles. When classifying the articles by nation, we had 8 articles published on China, 7 on Korea, 4 on Japan, 3 on India, 2 on the U.S., Myanmar, and Israel respectively, and one on Singapore and Iran each. The contents of the articles were mostly on Asia, with 19 articles dealing with Asia in general; 2 articles on Southeast Asia;

one article on Central Asia. Asia Brief will strive to cover diverse topics, regions, and nations with its articles in the future.

Meanwhile, Asia Brief published "2021 Top 10 Issues in Asia" at the end of 2021 with results from survey and social media analyses, and "2022 Prospects of Situations in Asia" contributed by 11 experts on Asia. "Survey on Korean People's Awareness of Asia" published on Asia Brief on January 10th, 2022, was reported by multiple news media starting with Yonhap News on January 12th, 2022. In particular, the "2021 Top 10 Issues in Asia" article was given major coverage by JoongAng Ilbo on January 19th (pages 1, 4, 5) and 20th (page 8), and 10 related articles were published digitally. These press coverages contributed to the public awareness of SNUAC as a central institution of Asian studies.

## AsIA Humanities Dissemination Center meets the public!

AsIA Humanities Dissemination Center was established when SNUAC was selected by the NRF with the HK+ research project in May 2020. The center excavates the humanities assets of Asian regions and operates various programs for diverse groups of citizens at home and abroad in order to proliferate the research accomplishments of each regional research center at SNUAC.

In 2021, the center offered Asia Local Expert Course, a humanities education program for young citizens in their 20s and 30s who aim to become experts in the Asian region; Compass Humanities School for Career Exploration, a humanities refinement education program for multicultural middle school students whose parents are from Asia; AsIA Humanities Asset Course, co-hosted with the National Museum of Korea for citizens in general off the SNU campus; and AsIA Civilizational Knowledge School, co-hosted with Extension College SNU for middle-aged and elderly citizens interested in Asian civilizational knowledge. These diverse courses were made public on YouTube in real-time or immediately after the event, with over 1,500 subscribers to the channel and several tens and thousands of views. AsIA Humanities Dissemination Center will serve as the foundation on which Asia can pursue becoming Mega-Asia by showing the world the diverse and vivid aspects of Asia.

Moreover, the center holds 'Dungsildungsil AsIA Culture Festival' every autumn as part of NRF's Humanities Week to introduce the cultures of Asian countries and enjoy time together with citizens domestically and internationally. In 2021, the festival was organized with Indonesia as the main theme, as the country now sits at the top of the Korean Wave index with a close distance at heart. The festival introduced diverse cultural aspects of Indonesia and shared the time with experts from different fields, thinking together about future cooperation between the two countries as companions.

## Broader activities of Center for South Asian Studies

The Center for South Asian Studies (CSAS) was established with the aim of specialized research and systematized building of related capacities on the history, economy, politics, languages, and overall cultures of the 8 countries in the South Asian Association for Regional Cooperation (SAARC) including India, Pakistan, Bangladesh, Sri Lanka and Nepal, as well as pursuing multilayered and reciprocal exchange and cooperation projects with those countries.

The main objectives of CSAS are as follows. First, in the current situation where the international society is showing an increased interest in India and the South Asian region due to their economic growth, the center conducts research on sustainable development in conjunction with an understanding of their history and cultural heritage. Second, the center holds diverse academic events with research topics related to South Asia such as fab labs, smart city and the Korean Wave, and constructs a cooperative network with diverse subjects at home and abroad. Third, the center provides high-quality content for citizens to enhance their understanding of South Asian society and culture, through platforms such as South Asia Culture School.

Major accomplishments of CSAS in 2021 are the 5 colloquiums that were held starting in April 2021 with the topic 'Plans and Practices of Convergence in the Hallyu Genre' until February 2022 with the topic 'Last Station for Human Settlement: Digital Twin Based Metaverse'. In August 2021, the center invited the ambassador of Pakistan for a roundtable talk, while in November, the center co-hosted the 12th Korea-SAARC Partnership Seminar with the Ministry of Foreign Affairs with the topic 'A Way forward for the Korea-SAARC Cooperation on Climate Change'. South Asia Culture School (4th cohort) is a public lecture series on the themes encompassing South Asian culture at large from ancient to contemporary times, and two long-term lectures (The world of classical Tibetan II, Let's Speak Sanskrit) were offered over 16 weeks from April to August 2021. The center also operates a YouTube channel that offers diverse contents. A monograph, *The Smart City of South Asia - Structure and Directions*, authored by experts of South Asia, is to be published in the first half of 2022, and Korea-India business exchange and expert training course will be run in partnership with IIMB, India.

## Expansion of the SNUAC Thesis and Dissertation Award winners

The SNUAC Master's Thesis and Doctoral Dissertation Award grants awards for excellent master's theses and Ph.D. dissertations on Asian region(s) and integrative topics related to Asia. The award includes prize money as well as publication grant for Ph.D. dissertations. The award was first established in 2014 only for doctoral dissertations, and was expanded to include master's theses in 2018. Every year, two authors of Ph.D. dissertations and two of master's theses are selected as winners; the total accumulated number of winners mounts up to 27, with 18 doctoral winners and 9 master's winners. Since 2020, the prize money has been funded by President Sungkwan Hong of Sangam Energy Co. Ltd., and the contribution was enlarged in 2021 in order to allow 6 winners per year instead of 4. Applications to the award are submitted at the end of August every year with theses and dissertations published within the past two years, and are evaluated over three months until November. Based on the criteria set forth by the evaluation committee, the assessment process is undertaken with strict fairness first for suitability and then for academic content by judges in two panels.

The topics dealt with by winners so far have been modern Chinese law Chinese politics, Southeast Asian society and culture, Japanese politics and diplomacy, post-Cold War world order, Japan and East Asian peace, colonial rule, development assistance, etc., encompassing diverse areas from Asian international relations, politics, law, society, culture, and history. The majors of winners also span over various fields in social sciences and humanities, from political science to sociology, anthropology, geography, international studies, law, environmental studies, history, and performing arts studies.

SNUAC is currently organizing a forum for the winners of the award from 2014 to 2021 in order to facilitate their academic exchange network. The SNUAC Master's Thesis and Doctoral Dissertation Award performs an important role in the institute's aim to activate exchange among academic disciplines and lead transdisciplinary research through the common topic of Asia.
