

Arts  
IN  
HEALTH  
CARE

*“The arts enhance the healing environment,  
but they also invite people to visit the hospital  
when they are well. If patients and families  
are familiar with the hospital, they will feel more  
comfortable in a time of need.”*

**MICHAEL KARPf, MD**

Executive Vice President for Health Affairs

## ARTS IN HEALTHCARE

*Creating a healing environment with art*

*“Our mission is to create an environment of care and to focus on the spiritual and emotional well-being of our patients, families, caregivers and staff. The program recognizes the arts and the artists as powerful and positive forces in the healing process.”*

THE UNIVERSITY OF KENTUCKY ARTS IN HEALTHCARE COMMITTEE  
a volunteer community advisory council

SEVERAL SIGNATURE PIECES  
LOCATED IN PRIMARY PUBLIC SPACES  
SOLICITED DESIGNS FROM  
MANY ARTISTS AROUND THE WORLD.

## THE HEALING POWER OF ART

The visual, literary and performing arts have existed in western and eastern health care systems since the beginning of recorded history. A growing body of research, both qualitative and quantitative, indicates that the arts serve patients and caregivers as powerful aids in times of emotional vulnerability and bring beauty into a stress-filled, health care world. The arts touch spirits that seek solace and encouragement.

MUSIC THERAPY AND PERFORMING ARTS  
WILL BE ORGANIZED UNDER THE NEW  
LUCILLE CAUDILL LITTLE PERFORMING  
ARTS IN HEALTHCARE PROGRAM.  
THE PERFORMING ARTS WILL MOVE FROM  
STAGE TO BEDSIDE AND WILL ALSO  
INCLUDE INTERACTIVE PROGRAMS.

## THE PROGRAM'S SCOPE

The *Arts in HealthCare* program will include art in all its forms - from the whimsy of folk art, to the textural richness of glass, wood and ceramics, to the soul-moving sounds of a musician or vocalist, to the stillness of a dancer in repose. Every visitor will find art that is accessible; that resonates with their individuality or opens the door to experiencing art for the first time.

commissioned art glass for the Myra Leigh Tobin Sanctuary

*“The increasing interest in arts in health care is a manifestation of a global acceptance of the movement. Arts in health care are complements to medical science rather than substitutes. The creative arts help people reclaim power over their lives and their health.”*

**DR. JOHN GRAHAM-POLE**

*“Restoring lives, restoring selves: The arts and healing.” International Journal of Arts Medicine*

FOLK ART IN THE COLLECTION  
WILL REPRESENT KEY KENTUCKY  
ARTISTS CURATED WITH THE  
KENTUCKY FOLK ART CENTER.

## UNIQUELY KENTUCKY

Aside from internationally commissioned pieces in key public locations,  
the core collection will feature artists who work in all media  
that have a Kentucky connection, many of which have achieved national  
and international reputations.

## DONOR DRIVEN

The University of Kentucky *Arts in HealthCare* program is supported solely by private funds. Many individual gifts and collected proceeds from the 2007 Groundbreaking Gala have provided the support to begin the program. Future gifts and collaborations with community art groups will bring the program to full fruition.

*“At the deepest level, the creative process and  
the healing process arise from a single source.*

*When you are an artist, you are a healer;  
a wordless trust of the same mystery is the  
foundation of your work and its integrity.”*

**RACHEL NAOMI REMEN, MD**

Author of *My Grandfather's Blessings* and *Kitchen Table Wisdom: Stories That Heal*

ROTATING GALLERY SPACES WILL  
ENCOURAGE THE COMMUNITY TO  
VISIT OFTEN AND ENJOY.

## BECOME INVOLVED

The *Arts in HealthCare* program is only limited by our imagination  
and the dedication of our volunteers. There are many ways you can help  
create a healing environment with art.

If you would like more information about the University of Kentucky  
*Arts in HealthCare* program, please contact Jacqueline Hamilton
