Compared to last week: Feeder cattle were too lightly tested either last sale or today to develop an accurate market trend, however steady undertones were noticed on both steers and heifers under 600 lbs and higher undertones were noticed on both steers and heifers over 600 lbs. Quality this week was mixed from plain to very attractive. Demand was good to very good on all offerings. Most offerings were weaned from 60-90 days, however, demand was similar for both weaned and un-weaned cattle as buyers focused on quality. Market activity was mostly active today. Bidders were active both ringside as well as over the internet this sale. Weigh up cows sold on good demand for light offerings. Demand for slaughter cows improved slightly this sale as packers purchased slightly better yielding cows to send to immediate harvest. Slaughter cows sold mostly 1.00 to 5.00 higher on boning and lean cows, breaking cows were too lightly tested to develop any market trend. Feeding cow demand continues to be good. Both private feeders and packers both showed good demand for cows to feed. Private buyers continue to buy slightly lame or slightly blemished cows to but away on feed. Feeding cows sold mostly 2.00 to 5.00 higher on high quality cows suitable to feed to premium white. Thin feeding cows sold mostly steady to 5.00 higher. Cow quality this week was average to attractive. Slaughter bulls were too lightly tested either this sale or last to develop any market trend. Weigh up conditions were mostly average to below average this week for cows and bulls. Bull quality this week was mostly plain with many low dressing bulls on offer. Young age offerings were too lightly tested to develop any market trend. Young age cows sold on mostly moderate to good demand for light offerings. Quality was mostly average. Supply included: 76% Feeder Cattle (45% Steers, 54% Heifers, 1% Bulls); 21% Slaughter Cattle (86% Cows, 14% Bulls); 3% Replacement Cattle (100% Stock Cows). Feeder cattle supply over 600 lbs was 20%.
