

## ANTHC TELEHEALTH NEWS BULLETIN: MAY 2021

### ANTHC Telehealth News:

- ◇ **We have a new website:** Our new webpage is: <https://anthc.org/telehealth/>. Here you can find important news updates for tribal partners, job aids, telehealth resources, information on project ECHO clinics, and telehealth information for patients.
  - ◇ Please note: our former webpage (<https://afhcan.org/>) still exists, but content has been moved to our new page. Soon the old page will only redirect to our new one.
  
- ◇ **Statewide Transition to Zoom:** As the Alaska Tribal Health System moves forward with the transition from Vidyo to Zoom, please remember that at this time, the ANTHC specialty clinic's standard process is to use Vidyo (from within the Virtual Patient Room in Cerner) to connect for clinic to clinic video visits.
  - ◇ It will be of continued importance for clinical staff scheduling and facilitating video visits to confirm day of visit connection pathways with ANTHC specialty clinics by phone.

For questions call 729-2260 or email [AKA-TelehealthPS@ANTHC.ORG](mailto:AKA-TelehealthPS@ANTHC.ORG)
