## Fiscal Year 2014 Metrics and Guidelines & Directions for Budget Preparation

1. **Booth and Buggy** – Goal: Give all groups a flat rate amount for participating in booth and buggy.
  - I. Zero out any line items allocated for the building of booth except those allocated to come out of the capital expense fund. This includes all supplies, decorations, participation fees, and vehicle rentals used in the planning, building, and presentation of booth. *Most groups have all these expenses under one group, so it should be pretty easy. Just make sure you do not zero out line items O-Coded to come out of the capital expense fund!*
  - II. Add a line item (the default description is JFC addition), put in the correct amount based on our metrics, and put in the public comment, “JFC has changed its booth metric to a flat fee, set by the JFC at the start of the JFC Budget Review Process. This year, we will be funding student government recognized organizations \$2,500 for a full booth, \$750 for a Blitz Booth, and will provide groups doing Booth for the first time with a \$750 bonus.” *If you do not know whether your group does Blitz, Full, or if it is their first year, reach out to them, or Spring Carnival Committee.*
  - III. Zero out any line items allocated for the building or maintenance of Buggy except those allocated to come out of the capital expense fund. This includes all supplies, safety equipment, participation fees, and vehicle rentals used in the planning, building, and execution of buggy. *Most groups have all these expenses under one group, so it should be pretty easy. Just make sure you do not zero out line items O-Coded to come out of the capital expense fund!*
  - IV. Add a line item (the default description is JFC addition), put in the correct amount based on our metrics, and put in the public comment, “JFC has changed its buggy metric to a flat fee, set by the JFC at the start of the JFC Budget Review Process. This year, we will be funding student government recognized organizations \$1,000 if they participate in Buggy, and \$500 for each team that races, capped at four teams, or \$3000.” *If you do not know how many teams your organization has participating in Buggy, contact the them or Sweepstakes Committee at [buggy@andrew.cmu.edu](mailto:buggy@andrew.cmu.edu).*
2. **Revenue** – Goal: Ensure that when groups look at their budget, it is explicitly clear what expenses are expected to be covered by outside

## Fiscal Year 2014 Metrics and Guidelines & Directions for Budget Preparation

funding vs. what JFC is allocating money to be spent on. Also, ensure minimal change in subsidy in the process.

- I. Identify each revenue line item in the group's budget submission allocated to cover booth and buggy expenses, and zero it out. Do not allocate revenue to cover Booth or Buggy expenses.
- II. If the line item description matches a revenue line item to a specific expense, figure out what percentage of the expense is being covered by revenue. *Use the public comment function to indicate the percentage covered on both the revenue line item and the expense line item.*
- III. If there is blanket revenue (ie. general fundraising, dues, etc) that does not cover a specific expense, allocate the revenue to specific expenses at your discretion; ensure the aggregate expenses equals the amount of revenue by covering expenses either in full or at an amount less than 100%. *Consider our other metrics when doing this to help groups maximize funding (ie if you allocate revenue to personal meals or clothing, it will mean not adding more revenue later in the process consequentially maintaining their subsidy). Use the public comment function to indicate how the revenue is being divvied up on both the revenue line item and the expense line item(s).*
- IV. Look back over the budget and make sure your intentions are being clearly communicated. Look back at meeting notes and think about what the group identified as their priorities and make sure that is where JFC funding is going. *Remember what the goal of this revenue allocation process is, and ensure you are helping your organizations understand what is expected of them to pay for vs. JFC, and that your allocations are helping, not hurting, them.*
- V. Add revenue to cover the cost of any personal clothing, and add revenue in the amount of 75% of uniforms (We only subsidize 25%).
- VI. Finalize your changes and note how much revenue is already allocated to travel and food.

~During this process, you are going to have to use your judgment to make decisions that will shape how the entire group reviews your organizations' budgets. Feel free to reach out to the SBVVPF with questions as well as your groups if you need additional information~

## Fiscal Year 2014 Metrics and Guidelines & Directions for Budget Preparation

3. **Travel** – Goal: Have consistent travel allocations across groups while also factoring in the practical cost of travel, the varying needs of different organizations, and what is reasonable to ask participants to contribute.
  - I. Find every instance of lodging in the budget. If the amount per night is over \$150, change the amount based on \$150 per night per 4 people per room. If it is under \$150, make no change. *Make sure the O-Code 'Travel – Hotel and Lodging' is used for each instance of lodging.*
  - II. Identify each line item that is for transportation and sanity check that it looks reasonable. If it doesn't look right (ie. It costs 3,000 to transport 5 people to Philly), talk to your group of the SBVPF.
  - III. Identify any line item O-Coded as 'Travel-Other' or 'Travel-Professional Vehicle Services.' If the expense is transportation related (and should be treated like transportation and subsidized at 50%), keep it. If it is not (like black car service for a lecturer or performer or a vehicle for carnival/other event), change it to 'ops-program expenses.' If it is lodging related, change it to 'Travel – Hotel and Lodging.'
  - IV. Plug the amount of revenue already allocated to travel for that group, the number of people traveling for the group over the course of the year (not for just one instance of travel...if you don't know this number, reach out to your group), and the following O-Code aggregates (found at the bottom of the page) into the Metric Excel sheet under the travel tab:
    - i. **Hotel and Lodging**
    - ii. **Airfare Domestic**
    - iii. **Airfare Foreign**
    - iv. **Gas**
    - v. **Other**
    - vi. **Professional Vehicle Services**
    - vii. **Rental Car**
  - V. The Excel document will spit out a number. Add a new line item under the revenue section of the budget (or where makes the most sense based on how the budget is laid out) with that number (or 0 if excel gives you a negative number) and put as the public comment, "The JFC will fund hotels 80%, capped at \$150 per room per night per four people, 50% of transportation, and up to \$500 per person traveling for the year."

## Fiscal Year 2014 Metrics and Guidelines & Directions for Budget Preparation

4. **Food** – Goal: Fund food at a level that supports the needs of organizations.
  - I. Identify each line item allocated for food and make sure it is properly O-Coded:
    - i. **Food-Catering** – Large galas and banquets that require a level of food that can not be met by member efforts alone, and an outside vendor is needed.
    - ii. **Food-Meals for Members** – Personal meals or food exclusive to the membership of an organization. Includes retreat and personal development food
    - iii. **Food-Refreshments for Events** – Food for an event that does not require catering.
    - iv. **Food-General Body Meetings** – Food for meetings.
    - v. **Food-Recruitment** – Food for recruitment/Rush
  - II. Identify any food budgeted specifically for recruitment/rush. If the amount is under \$100 per semester, leave it as is. If the amount is over \$100 per semester, lower it to \$100 per semester. *If the group did not budget for recruitment food, then they get nothing. O-Code this food as Food-Recruitment (it's a new O-Code)*
  - III. Plug the amount of revenue already allocated to food for that group, the number of people in the organization (use the Bridge unless you have a better way of determining this number), and the following O-Code aggregates (found at the bottom of the page) into the Metric Excel sheet under the food tab:
    - i. **Catering**
    - ii. **Meals for Members**
    - iii. **Refreshments for Events**
    - iv. **Refreshments for General Body Meetings**
  - IV. The Excel document will spit out a number. Add a new line item under the revenue section of the budget (or where makes the most sense based on how the budget is laid out) with that number (or 0 if excel gives you a negative number) and put as the public comment, “The JFC will fund \$100 per semester for food for rush/recruitment, \$2 per person per semester for meeting food, \$200 per semester for food at events, and will not fund personal meals.”

## Fiscal Year 2014 Metrics and Guidelines & Directions for Budget Preparation

5. **Final Steps** – Goal: Tweak budgets to additional metrics
  - I. For advertising, cap all costs (meaning they can be lower but cannot exceed) according to the following schedule:
    - i. Club Promotion - \$100 per year
    - ii. An Event - \$40 per event instance
    - iii. Large Event - \$250 per event instance
    - iv. Doherty Banner - \$250 per banner
    - v. Cost to hang a Doherty Banner - \$120 per instance
  - II. If you adjust any advertising expenses, indicate in the public comment for that expense what metric is being used so the group knows why the expense was taken down.
  - III. Update the budget.
  - IV. Look at the schedule of new orgs at the end of this packet. If the organization you are adjusting is new, add a revenue line item to ensure the organization does not exceed \$1,000 in subsidy.
  - V. Update the Budget.
  - VI. Review the budget to make sure everything looks as you intend it to, and that everything is clearly communicated.
  - VII. Go through the budget and add any private comments that you think will help us review the budget as a group more efficiently.
  - VIII. Save one last time. Now rinse, wash, and repeat!

## Fiscal Year 2014 Metrics and Guidelines & Directions for Budget Preparation

### **New Organizations:**

Archery Club  
Capoeira Club  
Carnegie Alliance of Traditional and Social Dance  
Creators Coalition  
Inter A Cappella Council  
Lambda Sigma  
Latter-Day Saints Student Association  
Ms. CMU  
Mixed Martial Arts Club  
Scientists and Engineers for America  
Society of Asian Scientists and Engineers  
Student College  
Tartan Parkour  
Tufaan - The Storm  
Yarnivores  
Catholic Newman Club

**There are some additional ones who I do not have in my list who were assigned to Willy, Divya, and Erin. If you were assigned a group late and you cannot find a FY13 budget for them, then assume they are new.**
