

Our Student Learning
Practicum (SLP) program
has hosted and supported
over 700 students while
they completed their field
practicum.

Availability varies each semester, but typically we have **more than 100+ active students** at any given time.

All students are required to complete our **volunteer Crisis Counselor Training**.

Training takes approximately **15 hours to complete**.

This placement offers immense **flexibility for student schedules**, and access to **live support** on our conversation Platform from Student Learning Practicum program staff.
