

TECH REVOLUTION

VISION FOR THE FUTURE

Cutter Connectivity

I can use Coast Guard data systems and access critical information while underway through increased bandwidth, coverage area, and network speed.

Data for Decisions

I can access the information I need and leverage advanced analytics to help solve complex problems at work.

C5I Infrastructure

I can use my mobile workstation to access the digital tools I need on a fast and resilient network wherever my duties take me.

Software, Mobility, and Cloud

I can collaborate with my teammates in the Cloud using new apps that make my job easier. Virtual C-schools and training sessions accelerate my career.

Cyber Readiness

My digital workspace and operations are protected through enhanced network security and modern cyber defense tools.

Empowering our people with **RELIABLE, MOBILE, and INTEGRATED** technology.

TODAY

TOMORROW

FUTURE

Empowering our people with **RELIABLE, MOBILE, and INTEGRATED** technology.
