Message from the Editor-in-Chief

The *International Journal of Molecular Sciences* (*IJMS*, ISSN 1422-0067) is an open access journal, which was established in 2000. The journal aims to provide a forum for scholarly research on a range of topics, including biochemistry, molecular and cell biology, and molecular biophysics. *IJMS* publishes both original research and review articles, and regularly publishes special issues to highlight advances at the cutting edge of research. We invite you to read recent articles published in *IJMS* and consider publishing your next paper with us.

Editor-in-Chief

Aims

The *International Journal of Molecular Sciences* (ISSN 1422-0067; CODEN: IJMCFK; ISSN 1661-6596 for printed edition) provides an advanced forum for molecular studies in biology and chemistry, with a strong emphasis on molecular biology and molecular medicine. Our aim is to provide rigorous peer review and enable rapid publication of cutting-edge research to educate and inspire the scientific community worldwide.

We encourage scientists to publish their experimental, theoretical, and computational results in as much detail as possible, in a regular section (<https://www.mdpi.com/journal/ijms/sections>) or in a Special Issue (https://www.mdpi.com/journal/ijms/special_issues). Therefore, there is no restriction on the maximum length of the papers or the number of electronic multimedia and supplementary files. For all articles, the full experimental details must be provided so that the results can be reproduced. Electronic files regarding the full details of the experimental procedure, if unable to be published in a normal way, can be deposited as supplementary material (including animated pictures, videos, interactive Excel sheets, software executables and others).

Manuscript categories: original scientific research articles, comprehensive reviews, communications, case reports, letters, commentaries, editorials, etc.

Scope

- Biochemistry
- Molecular Biology
- Molecular Pathology, Diagnostics, and Therapeutics
- Bioactives and Nutraceuticals
- Molecular Plant Sciences
- Materials Science
- Molecular Toxicology
- Molecular Biophysics
- Molecular Microbiology
- Molecular Oncology
- Molecular Genetics and Genomics
- Molecular Immunology
- Molecular Pharmacology
- Molecular Informatics
- Molecular Endocrinology and Metabolism
- Molecular Neurobiology
- Physical Chemistry and Chemical Physics
- Macromolecules
- Molecular Nanoscience

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

2023 Impact Factor: 4.9

(*Journal Citation Reports* - Clarivate, 2024)

Coverage by Leading Indexing Service

Scopus, SCIE (Web of Science), PubMed, PMC, MEDLINE, Embase, CAPlus / SciFinder, and other databases

Rapid Publication

A first decision is provided to authors approximately 18.1 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the first half of 2024)
