## PREFACE

The Doyle Municipal Code contains the codification and revision of the ordinances of the Town of Doyle, Tennessee. By referring to the historical citation appearing at the end of each section, the user can determine the origin of each particular section. The absence of a historical citation means that the section was added by the codifier. The word "modified" in the historical citation indicates significant modification of the original ordinance.

The code is arranged into titles, chapters, and sections. Related matter is kept together, so far as possible, within the same title. Each section number is complete within itself, containing the title number, the chapter number, and the section of the chapter of which it is a part. Specifically, the first digit, followed by a hyphen, identifies the title number. The second digit identifies the chapter number, and the last two digits identify the section number. For example, title 2, chapter 1, section 6, is designated as section 2-106.

By utilizing the table of contents and the analysis preceding each title and chapter of the code, together with the cross references and explanations included as footnotes, the user should locate all the provisions in the code relating to any question that might arise. However, the user should note that most of the administrative ordinances (e.g. Annual Budget, Zoning Map Amendments, Tax Assessments, etc...) do not appear in the code. Likewise, ordinances that have been passed since the last update of the code do not appear here. Therefore, the user should refer to the town's ordinance book or the city recorder for a comprehensive and up to date review of the town's ordinances.

Following this preface is an outline of the ordinance adoption procedures, if any, prescribed by the town's charter.

The code has been arranged and prepared in loose-leaf form to facilitate keeping it up to date. MTAS will provide updating service under the following conditions:

- (1) That all ordinances relating to subjects treated in the code or which should be added to the code are adopted as amending, adding, or deleting specific chapters or sections of the code (see section 8 of the adopting ordinance).
- (2) That one copy of every ordinance adopted by the town is kept in a separate ordinance book and forwarded to MTAS annually.
- (3) That the town agrees to reimburse MTAS for the actual costs of reproducing replacement pages for the code (no charge is made for the consultant's work, and reproduction costs are usually nominal).

When the foregoing conditions are met MTAS will reproduce replacement pages for the code to reflect the amendments and additions made by such

ordinances. This service will be performed at least annually and more often if justified by the volume of amendments. Replacement pages will be supplied with detailed instructions for utilizing them so as again to make the code complete and up to date.

The able assistance of Bobbie J. Sams, the MTAS Word Processing Specialist who did all the typing on this project, and Tracy G. Gardner, Administrative Services Assistant is gratefully acknowledged.

4-203. Holidays. (1) Except and in addition to such other holidays as may be from time-to-time declared by the board of mayor and aldermen, the following days shall be official holidays for employees of the Town of Doyle:

(2) When a holiday falls on a Saturday, the preceding Friday shall be observed as the holiday, and when a holiday falls on a Sunday, the following Monday shall be observed as the holiday.

(3) All full-time employees of the town shall be compensated for any holiday granted in this chapter or otherwise designated by the board of mayor and aldermen by receiving eight (8) hours off with pay on the date of the holiday. However, in the interest of continuing essential municipal services, any town employee may be required to work on any holiday. Working on any holiday is a condition of employment for all town employees. Employees who are required to work on any holiday shall be paid double their regular pay for each hour they work on that holiday.<sup>1</sup>

(4) No employee shall be authorized to work on a holiday without the prior command or approval of the head of the department for whom the employee works. However, the board of mayor and aldermen may from time to time prescribe such other rules, regulations and limitations on overtime work as it desires.

(5) Any employee who is absent without leave on any working day immediately preceding or immediately following any holiday shall not be entitled to be paid for such holiday. (1994 Code, § 4-203)

4-204. Vacation leave. (1) All regular and full-time employees of the town who have been employed by the town for one full year of continuous service shall be allowed vacation leave time with pay according to the following schedule:

| 1 year                  | 5 working days                    |
| 2 years and over        | 10 working days                   |

---

<sup>1</sup>In the event police and fire personnel or other classes of city employees are compensated for overtime work on another schedule or system, that schedule or system should be described.

For vacation leave purposes the term "working day" as it applies herein shall be computed on an eight (8) hour basis.

(2) Vacation leave compensation shall be computed at the employee's regular straight time pay rate in effect as of the date that the vacation leave time is earned.

(3) The date of service to be used in determining vacation leave time accrual rate is the beginning date of the employee's current period of continuous service or the date on which the employee was initially employed or appointed, whichever is more recent.

(4) An employee shall not be eligible to take vacation leave until he or she has had one (1) year continuous employment.

(5) Vacation leave may not be taken before it is earned.

(6) Temporary, casual or part-time employees are not eligible for accrual of vacation leave.

(7) For vacation purposes, any reinstated employee shall be considered as a new employee regardless of the reason for separation.

(8) Earned vacation leave may be taken in whole or in part throughout the year at such times as may be approved by the head of the department for which such employee works. No less than one (1) day may be taken at any one time. In the case of employees who handle receipt of payments of taxes, water bills, court fines, or other funds being paid over to the town, such employees shall not take any vacation time of less than five (5) days at one period.

(9) No more than thirty (30) days vacation leave may be accumulated by any employee.

(10) Any official holiday falling within a period of vacation leave shall be charged as holiday leave rather than vacation leave.

(11) Any regular, full-time employee who is separated from employment with the town for any reason, including retirement, may receive terminal vacation leave pay for any unused portion of his or her accumulated vacation leave up to the limit of vacation leave allowed to be accumulated under this chapter. (1994 Code, § 4-204)

4-205. Sick leave. (1) All full-time employees of the town shall be allowed to accumulate sick leave with pay at the rate of one (1) working day for each full calendar month of service completed up to an unused maximum of thirty (30) working days. Sick leave shall be considered a benefit and privilege and not a right for the employees to use at his or her discretion. Employees shall, therefore, utilize their accumulated sick leave allowance for absences due to personal illness or physical incapacity, personal illness or physical incapacity within the immediate family of the employee (as defined in paragraph 3 below), enforced quarantine of the employee in accordance with community health regulations, disability resulting from pregnancy, childbirth or related medical conditions, or so as to keep an appointment with a licensed medical doctor, dentist or other recognized health care practitioner.

(2) The board of mayor and aldermen may, in its discretion, prescribe regulations requiring that a health care practitioner's certificate or other satisfactory evidence be filed with the town supporting the absence before it may be properly chargeable as sick leave.

(3) For sick leave purposes the term "working day" as it applies in this section shall be computed on an eight (8) hour basis. The term "immediate family" shall be defined as spouse, children, parents, brothers and sisters, and grandparents, both of the employee and spouse of the employee.

(4) Sick leave compensation shall be figured at the employee's straight time pay rate in effect at the date it is used by the employee.

(5) The date of service to be used in determining sick leave time accrual rate is the beginning date of the employee's current period of continuous service or the date on which the employee was initially employed or appointed, whichever is more recent.

(6) Sick leave shall begin to accrue on the first day of the month next following the first full calendar month of employment.

(7) Temporary, casual or part-time employees are not eligible for accrual of sick leave.

(8) For sick leave purposes any reinstated employee shall be considered as a new employee regardless of the reason for his or her separation.

(9) Any employee who abuses these sick leave provisions or who deliberately makes or cause to be made any false or misleading statement or claim concerning the same, shall be subject to the loss of any such benefits, dismissal from his or her employment with the town or other disciplinary action.

(10) Any employee of the town who is injured when engaging in his employment for the town may be carried on sick leave for any accumulated sick leave that he or she has to his or her credit, but in no case shall any employee be allowed to receive sick leave pay while drawing any workers compensation or other disability payments resulting from any benefit provided by the town. (1994 Code, § 4-205)

4-206. Absence without leave. An absence without leave is an absence from duty which was not authorized or approved and for which either a request for leave was not made by the employee, or when made such request was denied. Under such circumstances any employee may be subject to such disciplinary action, including termination from employment with the town, as the board of mayor and aldermen deems necessary or appropriate. (1994 Code, § 4-206)

4-207. Absence without pay. An absence without pay is an absence which may or may not have been known and which has resulted from suspension, abandonment of position, or leave without pay granted by the town. The heads of all departments shall be responsible for maintaining accurate records of any employee who is absent from duty for any reason and shall promptly report the same to the mayor. (1994 Code, § 4-207)

4-208. Leave without pay. A regular or part-time employee who is in good standing may be granted a leave without pay for a period not to exceed ninety (90) calendar days in any one calendar year upon the approval of the board of mayor and aldermen. (1994 Code, § 4-208)

4-501. Purpose. It is the responsibility of the Town of Doyle to provide employees a place of employment which is free from recognized hazards that may cause death or serious physical harm. In providing services to the citizens of the Town of Doyle, employees may come in contact with life-threatening infectious diseases which can be transmitted through job related activities. It is important that both citizens and employees are protected from the transmission of diseases just as it is equally important that neither is discriminated against because of basic misconceptions about various diseases and illnesses.

The purpose of this policy is to establish a comprehensive set of rules and regulations governing the prevention of discrimination and potential occupational exposure to Hepatitis B Virus (HBV), the Human Immunodeficiency Virus (HIV), and Tuberculosis (TB). (1994 Code, § 4-501)

4-502. Coverage. Occupational exposures may occur in many ways, including needle sticks, cut injuries or blood spills. Several classes of employees are assumed to be at high risk for blood borne infections due to their routinely increased exposure to body fluids from potentially infected individuals. Those high risk occupations include but are not limited to:

- (1) Paramedics and emergency medical technicians;
- (2) Occupational nurses;
- (3) Housekeeping and laundry workers;

- (4) Police and security personnel;
- (5) Firefighters;
- (6) Sanitation and landfill workers; and
- (7) Any other employee deemed to be at high risk per this policy and an exposure determination. (1994 Code, § 4-502)

4-503. Administration. This infection control policy shall be administered by the mayor or his/her designated representative who shall have the following duties and responsibilities:

- (1) Exercise leadership in implementation and maintenance of an effective infection control policy subject to the provisions of this chapter, other ordinances, the town charter, and federal and state law relating to OSHA regulations;
- (2) Make an exposure determination for all employee positions to determine a possible exposure to blood or other potentially infectious materials;
- (3) Maintain records of all employees and incidents subject to the provisions of this chapter;
- (4) Conduct periodic inspections to determine compliance with the infection control policy by municipal employees;
- (5) Coordinate and document all relevant training activities in support of the infection control policy;
- (6) Prepare and recommend to the board of mayor and aldermen any amendments or changes to the infection control policy;
- (7) Identify any and all housekeeping operations involving substantial risk of direct exposure to potentially infectious materials and shall address the proper precautions to be taken while cleaning rooms and blood spills; and
- (8) Perform such other duties and exercise such other authority as may be prescribed by the board of mayor and aldermen. (1994 Code, § 4-503)

4-504. Definitions. (1) "Body fluids" - fluids that have been recognized by the Center for Disease Control as directly linked to the transmission of HIV and/or HBV and/or to which universal precautions apply: blood, semen, blood products, vaginal secretions, cerebrospinal fluid, synovial fluid, pericardial fluid, amniotic fluid, and concentrated HIV or HBV viruses.

(2) "Exposure" - the contact with blood or other potentially infectious materials to which universal precautions apply through contact with open wounds, non-intact skin, or mucous membranes during the performance of an individual's normal job duties.

(3) "Hepatitis B Virus (HBV)" - a serious blood-borne virus with potential for life-threatening complications. Possible complications include: massive hepatic necrosis, cirrhosis of the liver, chronic active hepatitis, and hepatocellular carcinoma.

(4) "Human Immunodeficiency Virus (HIV)" - the virus that causes acquired immunodeficiency syndrome (AIDS). HIV is transmitted through

sexual contact and exposure to infected blood or blood components and perinatally from mother to neonate.

(5) "Tuberculosis (TB)" - an acute or chronic communicable disease that usually affects the respiratory system, but may involve any system in the body.

(6) "Universal precautions" - refers to a system of infectious disease control which assumes that every direct contact with body fluid is infectious and requires every employee exposed to direct contact with potentially infectious materials to be protected as though such body fluid were HBV or HIV infected. (1994 Code, § 4-504)

4-505. Policy statement. All blood and other potentially infectious materials are infectious for several blood-borne pathogens. Some body fluids can also transmit infections. For this reason, the Center for Disease Control developed the strategy that everyone should always take particular care when there is a potential exposure. These precautions have been termed "universal precautions."

Universal precautions stress that all persons should be assumed to be infectious for HIV and/or other blood-borne pathogens. Universal precautions apply to blood, tissues, and other potentially infectious materials. Universal precautions also apply to semen, (although occupational risk or exposure is quite limited), vaginal secretions, and to cerebrospinal, synovial, pleural, peritoneal, pericardial and amniotic fluids. Universal precautions do not apply to feces, nasal secretions, human breast milk, sputum, saliva, sweat, tears, urine, and vomitus unless these substances contain visible blood. (1994 Code, § 4-505)

4-506. General guidelines. General guidelines which shall be used by everyone include:

(1) Think when responding to emergency calls and exercise common sense when there is potential exposure to blood or other potentially infectious materials which require universal precautions.

(2) Keep all open cuts and abrasions covered with adhesive bandages which repel liquids.

(3) Soap and water kill many bacteria and viruses on contact. If hands are contaminated with blood or other potentially infectious materials to which universal precautions apply, then wash immediately and thoroughly. Hands shall also be washed after gloves are removed even if the gloves appear to be intact. When soap and water or handwashing facilities are not available, then use a waterless antiseptic hand cleaner according to the manufacturers recommendation for the product.

(4) All workers shall take precautions to prevent injuries caused by needles, scalpel blades, and other sharp instruments. To prevent needle stick injuries, needles shall not be recapped, purposely bent or broken by hand, removed from disposable syringes, or otherwise manipulated by hand. After

they are used, disposable syringes and needles, scalpel blades and other sharp items shall be placed in puncture resistant containers for disposal. The puncture resistant container shall be located as close as practical to the use area.

(5) The town will provide gloves of appropriate material, quality and size for each affected employee. The gloves are to be worn when there is contact (or when there is a potential contact) with blood or other potentially infectious materials to which universal precautions apply:

(a) While handling an individual where exposure is possible;

(b) While cleaning or handling contaminated items or equipment;

(c) While cleaning up an area that has been contaminated with one of the above;

Gloves shall not be used if they are peeling, cracked, or discolored, or if they have punctures, tears, or other evidence of deterioration. Employees shall not wash or disinfect surgical or examination gloves for reuse.

(6) Resuscitation equipment shall be used when necessary. (No transmission of HBV or HIV infection during mouth-to-mouth resuscitation has been documented.) However, because of the risk of salivary transmission of other infectious diseases and the theoretical risk of HIV or HBV transmission during artificial resuscitation, bags shall be used. Pocket mouth-to-mouth resuscitation masks designed to isolate emergency response personnel from contact with a victims' blood and blood contaminated saliva, respiratory secretion, and vomitus, are available to all personnel to provide or potentially provide emergency treatment.

(7) Masks or protective eyewear or face shields shall be worn during procedures that are likely to generate droplets of blood or other potentially infectious materials to prevent exposure to mucous membranes of the mouth, nose, and eyes. They are not required for routine care.

(8) Gowns, aprons, or lab coats shall be worn during procedures that are likely to generate splashes of blood or other potentially infectious materials.

(9) Areas and equipment contaminated with blood shall be cleaned as soon as possible. A household (chlorine) bleach solution (1 part chlorine to 10 parts water) shall be applied to the contaminated surface as a disinfectant leaving it on for a least 30 seconds. A solution must be changed and re-mixed every 24 hours to be effective.

(10) Contaminated clothing (or other articles) shall be handled carefully and washed as soon as possible. Laundry and dish washing cycles at 120° are adequate for decontamination.

(11) Place all disposable equipment (gloves, masks, gowns, etc...) in a clearly marked plastic bag. Place the bag in a second clearly marked bag (double bag). Seal and dispose of by placing in a designated "hazardous" dumpster. **NOTE:** Sharp objects must be placed in an impervious container and shall be properly disposed of.

(12) Tags shall be used as a means of preventing accidental injury or illness to employees who are exposed to hazardous or potentially hazardous conditions, equipment or operations which are out of the ordinary, unexpected or not readily apparent. Tags shall be used until such time as the identified hazard is eliminated or the hazardous operation is completed.

All required tags shall meet the following criteria:

(a) Tags shall contain a signal word and a major message. The signal word shall be "BIOHAZARD", or the biological hazard symbol. The major message shall indicate the specific hazardous condition or the instruction to be communicated to employees.

(b) The signal word shall be readable at a minimum distance of five (5) feet or such greater distance as warranted by the hazard.

(c) All employees shall be informed of the meaning of the various tags used throughout the workplace and what special precautions are necessary.

(13) Linen soiled with blood or other potentially infectious materials shall be handled as little as possible and with minimum agitation to prevent contamination of the person handling the linen. All soiled linen shall be bagged at the location where it was used. It shall not be sorted or rinsed in the area. Soiled linen shall be placed and transported in bags that prevent leakage.

The employee responsible for transported soiled linen should always wear protective gloves to prevent possible contamination. After removing the gloves, hands or other skin surfaces shall be washed thoroughly and immediately after contact with potentially infectious materials.

(14) Whenever possible, disposable equipment shall be used to minimize and contain clean-up. (1994 Code, § 4-506)

4-507. Hepatitis B vaccinations. The Town of Doyle shall offer the appropriate Hepatitis B vaccination to employees at risk of exposure free of charge and in amounts and at times prescribed by standard medical practices. The vaccination shall be voluntarily administered. High risk employees who wish to take the HBV vaccination should notify their department head who shall make the appropriate arrangements through the Infectious Disease Control Coordinator. (1994 Code, § 4-507)

4-508. Reporting potential exposure. Town employees shall observe the following procedures for reporting a job exposure incident that may put them at risk for HIV or HBV infections (i.e., needle sticks, blood contact on broken skin, body fluid contact with eyes or mouth, etc...):

(1) Notify the Infectious Disease Control Coordinator of the contact incident and details thereof.

(2) Complete the appropriate accident reports and any other specific form required.

(3) Arrangements will be made for the person to be seen by a physician as with any job-related injury.

Once an exposure has occurred, a blood sample should be drawn after consent is obtained from the individual from whom exposure occurred and tested for Hepatitis B surface antigen (HBsAg) and/or antibody to human immunodeficiency virus (HIV antibody). Testing of the source individual should be done at a location where appropriate pretest counseling is available. Post-test counseling and referral for treatment should also be provided. (1994 Code, § 4-508)

4-509. Hepatitis B virus post-exposure management. For an exposure to a source individual found to be positive for HBsAg, the worker who has not previously been given the hepatitis B vaccine should receive the vaccine series. A single dose of hepatitis B immune globulin (HBIG) is also recommended, if it can be given within seven (7) days of exposure.

For exposure from an HBsAg-positive source to workers who have previously received the vaccine, the exposed worker should be tested for antibodies to hepatitis B surface antigen (anti-HBs), and given one dose of vaccine and one dose of HBIG if the antibody level in the worker's blood sample is inadequate (ie., 10 SRU by RIA, negative by EIA).

If the source individual is negative for HBsAg and the worker has not been vaccinated, this opportunity should be taken to provide the hepatitis B vaccine series. HBIG administration should be considered on an individual basis when the source individual is known or suspected to be at high risk of HBV infection. Management and treatment, if any, of previously vaccinated workers who receive an exposure from a source who refuses testing or is not identifiable should be individualized. (1994 Code, § 4-509)

4-510. Human immunodeficiency virus post-exposure management. For any exposure to a source individual who has AIDS, who is found to be positive for HIV infection, or who refuses testing, the worker should be counseled regarding the risk of infection and evaluated clinically and serologically for evidence of HIV infection as soon as possible after the exposure. The worker should be advised to report and seek medical evaluation for any acute febrile illness that occurs within 12 weeks after the exposure. Such an illness, particularly one characterized by fever, rash, or lymphadenopathy, may be indicative of recent HIV infection.

Following the initial test at the time of exposure, seronegative workers should be retested 6 weeks, 12 weeks, and 6 months after exposure to determine whether transmission has occurred. During this follow-up period (especially the first 6 - 12 weeks after exposure) exposed workers should follow the U.S. Public Health service recommendation for preventing transmission of HIV. These include refraining from blood donations and using appropriate protection during

sexual intercourse. During all phases of follow-up, it is vital that worker confidentiality be protected.

If the source individual was tested and found to be seronegative, baseline testing of the exposed worker with follow-up testing 12 weeks later may be performed if desired by the worker or recommended by the health care provider. If the source individual cannot be identified, decisions regarding appropriate follow-up should be individualized. Serologic testing should be made available by the town to all workers who may be concerned they have been infected with HIV through an occupational exposure. (1994 Code, § 4-510)

4-511. Disability benefits. Entitlement to disability benefits and any other benefits available for employees who suffer from on-the-job injuries will be determined by the Tennessee Worker's Compensations Bureau in accordance with the provisions of T.C.A., § 50-6-303. (1994 Code, § 4-511)

4-512. Training regular employees. On an annual basis all employees shall receive training and education on precautionary measures, epidemiology, modes of transmission and prevention of HIV/HBV infection and procedures to be used if they are exposed to needle sticks or potentially infectious materials.

They shall also be counseled regarding possible risks to the fetus from HIV/HBV and other associated infectious agents. (1994 Code, § 4-512)

4-513. Training high risk employees. In addition to the above, high risk employees shall also receive training regarding the location and proper use of personal protective equipment. They shall be trained concerning proper work practices and understand the concept of "universal precautions" as it applies to their work situation. They shall also be trained about the meaning of color coding and other methods used to designate contaminated material. Where tags are used, training shall cover precautions to be used in handling contaminated material as per this policy. (1994 Code, § 4-513)

4-514. Training new employees. During the new employee's orientation to his/her job, all new employee will be trained on the effects of infectious disease prior to putting them to work. (1994 Code, § 4-514)

4-515. Records and reports. (1) Reports. Occupational injury and illness records shall be maintained by the infectious disease control coordinator. Statistics shall be maintained on the OSHA-200 report. Only those work-related injuries that involve loss of consciousness, transfer to another job, restriction of work or motion, or medical treatment are required to be put on the OSHA-200.

(2) Needle sticks. Needle sticks, like any other puncture wound, are considered injuries for recordkeeping purposes due to the instantaneous nature of the event. Therefore, any needle stick requiring medical treatment (i.e.

gamma globulin, hepatitis B immune globulin, hepatitis B vaccine, etc...) shall be recorded.

(3) Prescription medication. Likewise, the use of prescription medication (beyond a single dose for minor injury or discomfort) is considered medical treatment. Since these types of treatment are considered necessary, and must be administered by physician or licensed medical personnel, such injuries cannot be considered minor and must be reported.

(4) Employee interviews. Should the town be inspected by the U.S. Department of Labor Office of Health Compliance, the compliance safety and health officer may wish to interview employees. Employees are expected to cooperate fully with the compliance officers. (1994 Code, § 4-515)

4-516. Legal rights of victims of communicable diseases. Victims of communicable diseases have the legal right to expect, and municipal employees, including police and emergency service officers are duty bound to provide, the same level of service and enforcement as any other individual would receive.

(1) Officers assume that a certain degree of risk exists in law enforcement and emergency service work and accept those risks with their individual appointments. This holds true with any potential risks of contacting a communicable disease as surely as it does with the risks of confronting an armed criminal.

(2) Any officer who refuses to take proper action in regard to victims of a communicable disease, when appropriate protective equipment is available, shall be subject to disciplinary measures along with civil and/or criminal prosecution.

(3) Whenever an officer mentions in a report that an individual has or may have a communicable disease, he shall write "contains confidential medical information" across the top margin of the first page of the report.

(4) The officer's supervisor shall ensure that the above statement is on all reports requiring that statement at the time the report is reviewed and initiated by the supervisor.

(5) The supervisor disseminating newspaper releases shall make certain the confidential information is not given out to the news media.

(6) All requests (including subpoenas) for copies of reports marked "contains confidential medical information" shall be referred to the city attorney when the incident involves an indictable or juvenile offense.

(7) Prior approval shall be obtained from the city attorney before advising a victim of sexual assault that the suspect has, or is suspected of having a communicable disease.

(8) All circumstance, not covered in this policy, that may arise concerning releasing confidential information regarding a victim, or suspected victim, of a communicable disease shall be referred directly to the appropriate department head or city attorney.

(9) Victims of a communicable disease and their families have a right to conduct their lives without fear of discrimination. An employee shall not make public, directly or indirectly, the identity of a victim or suspected victim of a communicable disease.

(10) Whenever an employee finds it necessary to notify another employee, police officer, firefighter, emergency service officer, or health care provider that a victim has or is suspected of having a communicable disease, that information shall be conveyed in a dignified, discrete and confidential manner. The person to whom the information is being conveyed should be reminded that the information is confidential and that it should not be treated as public information.

(11) Any employee who disseminates confidential information in regard to a victim, or suspected victim of a communicable disease in violation of this policy shall be subject to serious disciplinary action and/or civil and/or criminal prosecution. (1994 Code, § 4-516)

## CHAPTER 6

TRAVEL REIMBURSEMENT REGULATIONS

## SECTION

- 4-601. Purpose.
- 4-602. Enforcement.
- 4-603. Travel policy.
- 4-604. Travel reimbursement rate schedules.
- 4-605. Administrative procedures.

4-601. Purpose. The purpose of this chapter and referenced regulations is to bring the town into compliance with Public Acts 1993, Chapter 433. This act requires Tennessee municipalities to adopt travel and expense regulations covering expenses incurred by "any mayor and any member of the local governing body and any board or committee member elected or appointed by the mayor or local governing body, and any official or employee of the municipality whose salary is set by charter or general law."

To provide consistent travel regulations and reimbursement, this chapter is expanded to cover regular town employees. It's the intent of this policy to assure fair and equitable treatment to all individuals traveling on town business at town expense. (Ord. #93-7-1, Aug. 1993)

4-602. Enforcement. The chief administrative officer (CAO) of the town or his or her designee shall be responsible for the enforcement of these travel regulations. (Ord. #93-7-1, Aug. 1993)

4-603. Travel policy. (1) In the interpretation and application of this chapter, the term "traveler" or "authorized travel" means any elected or appointed municipal officer or employee, including members of municipal boards and committees appointed by the mayor or the municipal governing body, and the employees of such boards and committees who are traveling on official municipal business and whose travel was authorized in accordance with this chapter. "Authorized traveler" shall not include the spouse, children, other relatives, friends, or companions accompanying the authorized traveler on town business, unless the person(s) otherwise qualifies as an authorized traveler under this chapter.

(2) Authorized travelers are entitled to reimbursement of certain expenditures incurred while traveling on official business for the town. Reimbursable expenses shall include expenses for transportation; lodging; meals; registration fees for conferences, conventions, and seminars; and other actual and necessary expenses related to official business as determined by the CAO. Under certain conditions, entertainment expenses may be eligible for reimbursement.

(3) Authorized travelers can request either a travel advance for the projected cost of authorized travel, or advance billing directly to the town for registration fees, air fares, meals, lodging, conferences, and similar expenses.

Travel advance requests aren't considered documentation of travel expenses. If travel advances exceed documented expenses, the traveler must immediately reimburse the town. It will be the responsibility of the CAO to initiate action to recover any undocumented travel advances.

(4) Travel advances are available only for special travel and only after completion and approval of the travel authorization form.

(5) The travel expense reimbursement form will be used to document all expense claims.

(6) To qualify for reimbursement, travel expenses must be:

(a) Directly related to the conduct of the town business for which travel was authorized, and

(b) Actual, reasonable, and necessary under the circumstances.

The CAO may make exceptions for unusual circumstances.

Expenses considered excessive won't be allowed.

(7) Claims of \$5 or more for travel expense reimbursement must be supported by the original paid receipt for lodging, vehicle rental, phone call, public carrier travel, conference fee, and other reimbursable costs.

(8) Any person attempting to defraud the town or misuse town travel funds is subject to legal action for recovery of fraudulent travel claims and/or advances.

(9) Mileage and motel expenses incurred within the town aren't ordinarily considered eligible expenses for reimbursement. (Ord. #93-7-1, Aug. 1993)

4-604. Travel reimbursement rate schedules. Authorized travelers shall be reimbursed according to the State of Tennessee travel regulation rates. The town's travel reimbursement rates will automatically change when the state rates are adjusted.

The municipality may pay directly to the provider for expenses such as meals, lodging, and registration fees for conferences, conventions, seminars, and other education programs. (Ord. #93-7-1, Aug. 1993)

4-605. Administrative procedures. The town adopts and incorporates by reference--as if fully set out herein--the administrative procedures submitted by MTAS to, and approved by letter by, the Comptroller of the Treasury, State of Tennessee, in June 1993. A copy of the administrative procedures is on file in the office of the city recorder.

This chapter shall take effect upon its final reading by the municipal governing body. It shall cover all travel and expenses occurring on or after July 1, 1993. (Ord. #93-7-1, Aug. 1993)

conform to the requirements of this chapter and to the Standard Gas Code,<sup>1</sup> 1994 edition with 1996 revisions, which is hereby incorporated by reference and made a part of this chapter as if fully set forth herein. One (1) copy of the gas code shall be kept on file in the office of the city recorder for the use and inspection of the public. (1994 Code, § 12-402)

12-403. Use of existing piping and appliances. Notwithstanding any provision in the gas code to the contrary, consumer's piping installed prior to the adoption of the gas code or piping installed to supply other than natural gas may be converted to natural gas if the inspector finds, upon inspection and proper tests, that such piping will render reasonably satisfactory gas service to the consumer and will not in any way endanger life or property; otherwise, such piping shall be altered or replaced, in whole or in part, to conform with the requirements of the gas code. (1994 Code, § 12-403)

12-404. Bond and license. (1) No person shall engage in or work at the installation, extension, or alteration of consumer's gas piping or certain gas appliances, until such person shall have secured a license as hereinafter provided, and shall have executed and delivered to the city recorder a good and sufficient bond in the penal sum of \$10,000, with corporate surety, conditioned for the faithful performance of all such work, entered upon or contracted for, in strict accordance and compliance with the provisions of the gas code. The person obtaining a license shall pay any applicable license fees to the city recorder.

(3) Nothing herein contained shall be construed as prohibiting an individual from installing or repairing his own appliances or installing, extending, replacing, altering, or repairing consumer's piping on his own premises, or as requiring a license or a bond from an individual doing such work on his own premises; provided, however, all such work must be done in conformity with all other provisions of the gas code, including those relating to permits, inspections, and fees. In all cases where such a disconnection is made, a notice shall be attached to the piping, fixture, or appliance disconnected by the inspector, which notice shall state that the same has been disconnected by the inspector, together with the reason or reasons therefor, and it shall be unlawful for any person to remove said notice or reconnect said gas piping or fixture or appliance without authorization by the inspector and such gas piping or fixture or appliance shall not be put in service or used until the inspector has attached his certificate of approval in lieu of his prior disconnection notice.

(3) It shall be the duty of the inspector to confer from time to time with representatives of the local health department, the local fire department, and the gas company, and otherwise obtain from proper sources all helpful information and advice, presenting same to the appropriate officials from time to time for their consideration. (1994 Code, § 12-406)

12-407. Permits. (1) No person shall install a gas conversion burner, floor furnace, central heating plant, vented wall furnace, water heater, boiler, consumer's gas piping, or convert existing piping to utilize natural gas without first obtaining a permit to do such work from the city recorder; however, permits will not be required for setting or connecting other gas appliances, or for the repair of leaks in house piping.

(2) When only temporary use of gas is desired, the recorder may issue a permit for such use, for a period of not to exceed sixty (60) days, provided the consumer's gas piping to be used is given a test equal to that required for a final piping inspection.

(3) Except when work in a public street or other public way is involved the gas company shall not be required to obtain permits to set meters, or to extend, relocate, remove, or repair its service lines, mains, or other facilities, or for work having to do with its own gas system. 12-408. Inspections. (1) A rough piping inspection shall be made after all new piping authorized by the permit has been installed, and before any such piping has been covered or concealed or any fixtures or gas appliances have been attached thereto.

(2) A final piping inspection shall be made after all piping authorized by the permit has been installed and after all portions thereof which are to be concealed by plastering or otherwise have been so concealed, and before any fixtures or gas appliances have been attached thereto. This inspection shall include a pressure test, at which time the piping shall stand an air pressure equal to not less than the pressure of a column of mercury six (6) inches in height, and the piping shall hold this air pressure for a period of at least ten (10) minutes without any perceptible drop. A mercury column gauge shall be used for the test. All tools, apparatus, labor, and assistance necessary for the test shall be furnished by the installer of such piping. (1994 Code, § 12-408)

12-409. Certificates. The inspector shall issue a certificate of approval at the completion of the work for which a permit for consumer piping has been issued if after inspection it is found that such work complies with the provisions of the gas code. A duplicate of each certificate issued covering consumer's gas piping shall be delivered to the gas company and used as its authority to render gas service. (1994 Code, § 12-409)

At any intersection where traffic is permitted to move in both directions on each roadway entering the intersection, an approach for a left turn shall be made in that portion of the right half of the roadway nearest the center line thereof and by passing to the right of the intersection of the center lines of the two roadways. (1994 Code, § 15-403)

## CHAPTER 5

STOPPING AND YIELDING

## SECTION

- 15-501. Upon approach of authorized emergency vehicles.
- 15-502. When emerging from alleys, etc.
- 15-503. To prevent obstructing an intersection.
- 15-504. At railroad crossings.
- 15-505. At "stop" signs.
- 15-506. At "yield" signs.
- 15-507. At traffic control signals generally.
- 15-508. At flashing traffic control signals.
- 15-509. At pedestrian control signals.
- 15-510. Stops to be signaled.

15-501. Upon approach of authorized emergency vehicles.<sup>1</sup> Upon the immediate approach of an authorized emergency vehicle making use of audible and/or visual signals meeting the requirements of the laws of this state, the driver of every other vehicle shall immediately drive to a position parallel to, and as close as possible to, the right hand edge or curb of the roadway clear of any intersection and shall stop and remain in such position until the authorized emergency vehicle has passed, except when otherwise directed by a police officer. (1994 Code, § 15-501)

15-502. When emerging from alleys, etc. The drivers of all vehicles emerging from alleys, parking lots, driveways, or buildings shall stop such vehicles immediately prior to driving onto any sidewalk or street. They shall not proceed to drive onto the sidewalk or street until they can safely do so without colliding or interfering with approaching pedestrians or vehicles. (1994 Code, § 15-502)

15-503. To prevent obstructing an intersection. No driver shall enter any intersection or marked crosswalk unless there is sufficient space on the other side of such intersection or crosswalk to accommodate the vehicle he is operating without obstructing the passage of traffic in or on the intersecting street or crosswalk. This provision shall be effective notwithstanding any traffic control signal indication to proceed. (1994 Code, § 15-503)

<sup>1</sup>Municipal code reference

Special privileges of emergency vehicles: title 15, chapter 2.

15-504. At railroad crossings. Any driver of a vehicle approaching a railroad grade crossing shall stop within not less than fifteen (15) feet from the nearest rail of such railroad and shall not proceed further while any of the following conditions exist:

(1) A clearly visible electrical or mechanical signal device gives warning of the approach of a railroad train.

(2) A crossing gate is lowered or a human flagman signals the approach of a railroad train.

(3) A railroad train is approaching within approximately fifteen hundred (1500) feet of the highway crossing and is emitting an audible signal indicating its approach.

(4) An approaching railroad train is plainly visible and is in hazardous proximity to the crossing. (1994 Code, § 15-504)

15-505. At "stop" signs. The driver of a vehicle facing a "stop" sign shall bring his vehicle to a complete stop immediately before entering the crosswalk on the near side of the intersection or, if there is no crosswalk, then immediately before entering the intersection, and shall remain standing until he can proceed through the intersection in safety. (1994 Code, § 15-505)

15-506. At "yield" signs. The drivers of all vehicles shall yield the right of way to approaching vehicles before proceeding at all places where "yield" signs have been posted. (1994 Code, § 15-506)

15-507. At traffic control signals generally. Traffic control signals exhibiting the words "Go," "Caution," or "Stop," or exhibiting different colored lights successively one at a time, or with arrows, shall show the following colors only and shall apply to drivers of vehicles and pedestrians as follows:

(1) Green alone, or "Go":

(a) Vehicular traffic facing the signal may proceed straight through or turn right or left unless a sign at such place prohibits such turn. But vehicular traffic, including vehicles turning right or left, shall yield the right-of-way to other vehicles and to pedestrians lawfully within the intersection or an adjacent crosswalk at the time such signal is exhibited.

(b) Pedestrians facing the signal may proceed across the roadway within any marked or unmarked crosswalk.

(2) Steady yellow alone, or "Caution":

(a) Vehicular traffic facing the signal is thereby warned that the red or "Stop" signal will be exhibited immediately thereafter, and such vehicular traffic shall not enter or be crossing the intersection when the red or "Stop" signal is exhibited.

(b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(3) Steady red alone, or "Stop":

(a) Vehicular traffic facing the signal shall stop before entering the crosswalk on the near side of the intersection or, if none, then before entering the intersection and shall remain standing until green or "Go" is shown alone. Provided, however, that generally a right turn on a red signal shall be permitted at all intersections within the town, provided that the prospective turning car comes to a full and complete stop before turning and that the turning car yields the right of way to pedestrians and cross traffic traveling in accordance with their traffic signal. However, said turn shall not endanger other traffic lawfully using said intersection. A right turn on red shall be permitted at all intersections except those clearly marked by a "No Turns On Red" sign, which may be erected by the town at intersections which the town decides require no right turns on red in the interest of traffic safety.

(b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(4) Steady red with green arrow:

(a) Vehicular traffic facing such signal may cautiously enter the intersection only to make the movement indicated by such arrow but shall yield the right-of-way to pedestrians lawfully within a crosswalk and to other traffic lawfully using the intersection.

(b) Pedestrians facing such signal shall not enter the roadway unless authorized so to do by a pedestrian "Walk" signal.

(5) In the event an official traffic control signal is erected and maintained at a place other than an intersection, the provisions of this section shall be applicable except as to those provisions which by their nature can have no application. Any stop required shall be made at a sign or marking on the pavement indicating where the stop shall be made, but in the absence of any such sign or marking the stop shall be made a vehicle length short of the signal. (1994 Code, § 15-507)

15-508. At flashing traffic control signals. (1) Whenever an illuminated flashing red or yellow signal is used in a traffic sign or signal placed or erected in the town it shall require obedience by vehicular traffic as follows:

(a) Flashing red (stop signal). When a red lens is illuminated with intermittent flashes, drivers of vehicles shall stop before entering the nearest crosswalk at an intersection or at a limit line when marked, or if none, then before entering the intersection, and the right to proceed shall be subject to the rules applicable after making a stop at a stop sign.

(b) Flashing yellow (caution signal). When a yellow lens is illuminated with intermittent flashes, drivers of vehicles may proceed through the intersection or past such signal only with caution.

(2) This section shall not apply at railroad grade crossings. Conduct of drivers of vehicles approaching railroad grade crossings shall be governed by the rules set forth in § 15-504 of this code. (1994 Code, § 15-508)

15-509. At pedestrian control signals. Wherever special pedestrian control signals exhibiting the words "Walk" or "Wait" or "Don't Walk" have been placed or erected by the town, such signals shall apply as follows:

(1) Walk. Pedestrians facing such signal may proceed across the roadway in the direction of the signal and shall be given the right-of-way by the drivers of all vehicles.

(2) Wait or Don't Walk. No pedestrian shall start to cross the roadway in the direction of such signal, but any pedestrian who has partially completed his crossing on the walk signal shall proceed to the nearest sidewalk or safety zone while the wait signal is showing. (1994 Code, § 15-509)

15-510. Stops to be signaled. No person operating a motor vehicle shall stop such vehicle, whether in obedience to a traffic sign or signal or otherwise, without first signaling his intention in accordance with the requirements of the state law,<sup>1</sup> except in an emergency. - 15-611. Unlawful to deposit slugs in meters.
- 15-612. Presumption with respect to illegal parking.

15-601. Generally. No person shall leave any motor vehicle unattended on any street without first setting the brakes thereon, stopping the motor, removing the ignition key, and turning the front wheels of such vehicle toward the nearest curb or gutter of the street.

Except as hereinafter provided, every vehicle parked upon a street within this town shall be so parked that its right wheels are approximately parallel to and within eighteen (18) inches of the right edge or curb of the street. On one-way streets where the town has not placed signs prohibiting the same, vehicles may be permitted to park on the left side of the street, and in such cases the left wheels shall be required to be within eighteen (18) inches of the left edge or curb of the street.

Notwithstanding anything else in this code to the contrary, no person shall park or leave a vehicle parked on any public street or alley within the fire limits between the hours of 1:00 A.M. and 5:00 A.M. or on any other public street or alley for more than seventy-two (72) consecutive hours without the prior approval of the chief of police.

Furthermore, no person shall wash, grease, or work on any vehicle, except to make repairs necessitated by an emergency, while such vehicle is parked on a public street. (1994 Code, § 15-601)

15-602. Angle parking. On those streets which have been signed or marked by the town for angle parking, no person shall park or stand a vehicle other than at the angle indicated by such signs or markings. No person shall angle park any vehicle which has a trailer attached thereto or which has a length in excess of twenty-four (24) feet. (1994 Code, § 15-602)

15-603. Occupancy of more than one space. No person shall park a vehicle in any designated parking space so that any part of such vehicle occupies more than one such space or protrudes beyond the official markings on the street or curb designating such space unless the vehicle is too large to be parked within a single designated space. (1994 Code, § 15-603)

15-604. Where prohibited. No person shall park a vehicle in violation of any sign placed or erected by the state or town, nor:

- (1) On a sidewalk; provided, however, a bicycle may be parked on a sidewalk if it does not impede the normal and reasonable movement of pedestrian or other traffic;
- (2) In front of a public or private driveway;
- (3) Within an intersection;
- (4) Within fifteen feet (15') of a fire hydrant;
- (5) Within a pedestrian crosswalk;
- (6) Within twenty feet (20') of a crosswalk at an intersection;
- (7) Within thirty feet (30') upon the approach of any flashing beacon, stop sign or traffic control signal located at the side of a roadway;
- (8) Within fifty feet (50') of the nearest rail of a railroad crossing;
- (9) Within twenty feet (20') of the driveway entrance to any fire station, and on the side of the street opposite the entrance to any fire station within seventy-five feet (75') of such entrance when properly signposted;
- (10) Alongside or opposite any street excavation or obstruction when stopping, standing or parking would obstruct traffic;
- (11) On the roadway side of any vehicle stopped or parked at the edge or curb of a street;
- (12) Upon any bridge or other elevated structure upon a highway or within a highway tunnel;
- (13) In a parking space clearly identified by an official sign as being reserved for the physically handicapped, unless, however, the person driving the vehicle is:
  - (a) Physically handicapped, or
  - (b) Parking such vehicle for the benefit of a physically handicapped person.

A vehicle parking in such a space shall display a certificate of identification or a disabled veteran's license plate issued under Tennessee Code Annotated, title 55, chapter 21. (1994 Code, § 15-604)

15-605. Loading and unloading zones. No person shall park a vehicle for any purpose or period of time other than for the expeditious loading or unloading of passengers or merchandise in any place marked by the town as a loading and unloading zone. (1994 Code, § 15-605)

15-606. Regulation by parking meters. In the absence of an official sign to the contrary which has been installed by the town, between the hours of 8:00 A.M. and 6:00 P.M., on all days except Sundays and holidays declared by the board of mayor and aldermen, parking shall be regulated by parking meters where the same have been installed by the town. The presumption shall be that all installed parking meters were lawfully installed by the town. (1994 Code, § 15-606)

15-607. Lawful parking in parking meter spaces. Any parking space regulated by a parking meter may be lawfully occupied by a vehicle only after a proper coin has been deposited in the parking meter and the said meter has been activated or placed in operation in accordance with the instructions printed thereon. (1994 Code, § 15-607)

15-608. Unlawful parking in parking meter spaces. It shall be unlawful for the owner or operator of any vehicle to park or allow his vehicle to be parked in a parking space regulated by a parking meter for more than the maximum period of time which can be purchased at one time. Insertion of additional coin or coins in the meter to purchase additional time is unlawful.

No owner or operator of any vehicle shall park or allow his vehicle to be parked in such a space when the parking meter therefor indicates no parking time allowed, whether such indication is the result of a failure to deposit a coin or to operate the lever or other actuating device on the meter, or the result of the automatic operation of the meter following the expiration of the lawful parking time subsequent to depositing a coin therein at the time the vehicle was parked. (1994 Code, § 15-608)

15-609. Unlawful to occupy more than one parking meter space. It shall be unlawful for the owner or operator of any vehicle to park or allow his vehicle to be parked across any line or marking designating a parking meter space or otherwise so that such vehicle is not entirely within the designated parking meter space; provided, however, that vehicles which are too large to park within one space may be permitted to occupy two adjoining spaces provided proper coins are placed in both meters. (1994 Code, § 15-609)

15-610. Unlawful to deface or tamper with meters. It shall be unlawful for any unauthorized person to open, deface, tamper with, willfully break, destroy, or impair the usefulness of any parking meter. (1994 Code, § 15-610)

15-611. Unlawful to deposit slugs in meters. It shall be unlawful for any person to deposit in a parking meter any slug or other substitute for a coin of the United States. (1994 Code, § 15-611)

15-612. Presumption with respect to illegal parking. When any unoccupied vehicle is found parked in violation of any provision of this chapter, there shall be a prima facie presumption that the registered owner of the vehicle is responsible for such illegal parking. (1994 Code, § 15-612)

(1994 Code, § 15-705)

The receipt shall be valid as a temporary driving permit for a period not less than the time necessary for an appropriate adjudication of the matter in the city court, and shall state such period of validity on its face.

EXCAVATIONS<sup>1</sup>

## SECTION

- 16-201. Permit required.
- 16-202. Applications.
- 16-203. Fee.
- 16-204. Deposit or bond.
- 16-205. Safety restrictions on excavations.
- 16-206. Restoration of streets, etc.
- 16-207. Insurance.
- 16-208. Time limits.
- 16-209. Supervision.

16-201. Permit required. It shall be unlawful for any person, firm, corporation, association, or others, including utility districts to make any excavation in any street, alley, or public place, or to tunnel under any street, alley, or public place without having first obtained a permit as herein required, and without complying with the provisions of this chapter; and it shall also be unlawful to violate, or vary from, the terms of any such permit; provided, however, any person maintaining pipes, lines, or other underground facilities in or under the surface of any street may proceed with an opening without a permit when emergency circumstances demand the work to be done immediately and a permit cannot reasonably and practicably be obtained beforehand. The person shall thereafter apply for a permit on the first regular business day on which the office of the city recorder is open for business, and the permit shall be retroactive to the date when the work was begun. (1994 Code, § 16-201)

16-202. Applications. Applications for such permits shall be made to the city recorder, or such person as he may designate to receive such applications, and shall state thereon the location of the intended excavation or tunnel, the size thereof, the purpose thereof, the person, firm, corporation, association, or others doing the actual excavating, the name of the person, firm, corporation, association, or others for whom the work is being done, and shall contain an agreement that the applicant will comply with all ordinances and laws relating

This chapter was patterned substantially after the ordinance upheld by the Tennessee Supreme Court in the case of City of Paris, Tennessee v. Paris-Henry County Public Utility District, 207 Tenn. 388, 340 S.W.2d 885 (1960).

to the work to be done. Such application shall be rejected or approved by the city recorder within twenty-four (24) hours of its filing. (1994 Code, § 16-202)

16-203. Fee. The fee for such permits shall be twenty dollars (\$20.00). (1994 Code, § 16-203)

16-204. Deposit or bond. No such permit shall be issued unless and until the applicant therefor has deposited with the city recorder a cash deposit. The deposit shall be in the sum of five hundred dollars (\$500.00) if no pavement is involved or one thousand dollars (\$1,000.00) if the excavation is in a paved area and shall insure the proper restoration of the ground and, laying of the pavement, if any. Where the amount of the deposit is clearly inadequate to cover the cost of restoration, the city recorder may increase the amount of the deposit to an amount considered by him to be adequate to cover the cost. From this deposit shall be deducted the expense to the town of relaying the surface of the ground or pavement, and of making the refill if this is done by the town or at its expense. The balance shall be returned to the applicant without interest after the tunnel or excavation is completely refilled and the surface or pavement is restored.

In lieu of a deposit the applicant may deposit with the city recorder a surety bond in such form and amount as the city recorder shall deem adequate to cover the costs to the town if the applicant fails to make proper restoration. (1994 Code, § 16-204)

16-205. Safety restrictions on excavations. Any person, firm, corporation, association, or others making any excavation or tunnel shall do so according to the terms and conditions of the application and permit authorizing the work to be done. Sufficient and proper barricades and lights shall be maintained to protect persons and property from injury by or because of the excavation being made. If any sidewalk is blocked by any such work, a temporary sidewalk shall be constructed and provided which shall be safe for travel and convenient for users. (1994 Code, § 16-205)

16-206. Restoration of streets, etc. Any person, firm, corporation, association, or others making any excavation or tunnel in or under any street, alley, or public place in this town shall restore the street, alley, or public place to its original condition except for the surfacing, which shall be done by the town but shall be paid for promptly upon completion by such person, firm, corporation, association, or others for which the excavation or tunnel was made. In case of unreasonable delay in restoring the street, alley, or public place, the city recorder shall give notice to the person, firm, corporation, association, or others that unless the excavation or tunnel is refilled properly within a specified reasonable period of time, the town will do the work and charge the expense of doing the same to such person, firm, corporation, association, or others. If

within the specified time the conditions of the above notice have not been complied with, the work shall be done by the town, an accurate account of the expense involved shall be kept, and the total cost shall be charged to the person, firm, corporation, association, or others who made the excavation or tunnel. (1994 Code, § 16-206)

16-207. Insurance. In addition to making the deposit or giving the bond hereinbefore required to insure that proper restoration is made, each person applying for an excavation permit shall file a certificate of insurance indicating that he is insured against claims for damages for personal injury as well as against claims for property damage which may arise from or out of the performance of the work, whether such performance be by himself, his subcontractor, or anyone directly or indirectly employed by him. Such insurance shall cover collapse, explosive hazards, and underground work by equipment on the street, and shall include protection against liability arising from completed operations. The amount of the insurance shall be prescribed by the city recorder in accordance with the nature of the risk involved; provided, however, that the liability insurance for bodily injury shall not be less than \$130,000 for each person and \$350,000 for each accident, and for property damages not less than \$50,000 for any one (1) accident, and a \$75,000 aggregate. (1994 Code, § 16-207)

16-208. Time limits. Each application for a permit shall state the length of time it is estimated will elapse from the commencement of the work until the restoration of the surface of the ground or pavement, or until the refill is made ready for the pavement to be put on by the town if the town restores such surface pavement. It shall be unlawful to fail to comply with this time limitation unless permission for an extension of time is granted by the city recorder. (1994 Code, § 16-208)

16-209. Supervision. The person designated by the board of mayor and aldermen shall from time to time inspect all excavations and tunnels being made in or under any public street, alley, or other public place in the town and see to the enforcement of the provisions of this chapter. Notice shall be given to him at least ten (10) hours before the work of refilling any such excavation or tunnel commences. (1994 Code, § 16-209)

(1994 Code, § 17-101)

17-102. Premises to be kept clean. All persons within the town are required to keep their premises in a clean and sanitary condition, free from accumulations of refuse except when stored as provided in this chapter. (1994 Code, § 17-102)

17-103. Storage. Each owner, occupant, or other responsible person using or occupying any building or other premises within this town where refuse accumulates or is likely to accumulate, shall provide and keep covered an adequate number of refuse containers. The refuse containers shall be strong, durable, and rodent and insect proof. They shall each have a capacity of not less than twenty (20) nor more than thirty-two (32) gallons, except that this maximum capacity shall not apply to larger containers which the town handles mechanically. Furthermore, except for containers which the town handles mechanically, the combined weight of any refuse container and its contents shall not exceed seventy-five (75) pounds. No refuse shall be placed in a refuse

Tree trimmings, hedge clippings, and similar materials shall be cut to a length not to exceed four (4) feet and shall be securely tied in individual bundles weighing not more than seventy-five (75) pounds each and being not more than two (2) feet thick before being deposited for collection. (1994 Code, § 17-104)

17-105. Disturbing containers. No unauthorized person shall uncover, rifle, pilfer, dig into, turn over, or in any other manner disturb or use any refuse container belonging to another. This section shall not be construed to prohibit the use of public refuse containers for their intended purpose. (1994 Code, § 17-105)

17-106. Collection. All refuse accumulated within the corporate limits shall be collected, conveyed, and disposed of under the supervision of the \_\_\_\_\_. Collections shall be made regularly in accordance with an announced schedule. (1994 Code, § 17-106)

17-107. Collection vehicles. The collection of refuse shall be by means of vehicles with beds constructed of impervious materials which are easily cleanable and so constructed that there will be no leakage of liquids draining from the refuse onto the streets and alleys. Furthermore, all refuse collection vehicles shall utilize closed beds or such coverings as will effectively prevent the scattering of refuse over the streets or alleys. (1994 Code, § 17-107)

17-108. Disposal. The disposal of refuse in any quantity by any person in any place, public or private, other than at the site or sites designated for refuse disposal by the board of mayor and aldermen is expressly prohibited. (1994 Code, § 17-108)

TITLE 20

MISCELLANEOUS

[RESERVED FOR FUTURE USE]

## ORDINANCE NO. \_\_\_\_\_

**AN ORDINANCE ADOPTING AND ENACTING A CODIFICATION AND REVISION OF THE ORDINANCES OF THE TOWN OF DOYLE, TENNESSEE.**

WHEREAS some of the ordinances of the Town of Doyle are obsolete, and

WHEREAS some of the other ordinances of the town are inconsistent with each other or are otherwise inadequate, and

WHEREAS the Board of Mayor and Aldermen of the Town of Doyle, Tennessee, has caused its ordinances of a general, continuing, and permanent application or of a penal nature to be codified and revised and the same are embodied in a code of ordinances known as the "Doyle Municipal Code," now, therefore:

BE IT ORDAINED BY THE BOARD OF MAYOR AND ALDERMEN OF THE TOWN OF DOYLE, TENNESSEE, THAT:

**Section 1. Ordinances codified.** The ordinances of the town of a general, continuing, and permanent application or of a penal nature, as codified and revised in the following "titles," namely "titles" 1 to 20, both inclusive, are ordained and adopted as the "Doyle Municipal Code," hereinafter referred to as the "municipal code."

**Section 2. Ordinances repealed.** All ordinances of a general, continuing, and permanent application or of a penal nature not contained in the municipal code are hereby repealed from and after the effective date of said code, except as hereinafter provided in Section 3 below.

**Section 3. Ordinances saved from repeal.** The repeal provided for in Section 2 of this ordinance shall not affect: Any offense or act committed or done, or any penalty or forfeiture incurred, or any contract or right established or accruing before the effective date of the municipal code; any ordinance or resolution promising or requiring the payment of money by or to the town or authorizing the issuance of any bonds or other evidence of said town's indebtedness; any appropriation ordinance or ordinance providing for the levy of taxes or any budget ordinance; any contract or obligation assumed by or in favor of said town; any ordinance establishing a social security system or providing coverage under that system; any administrative ordinances or resolutions not in conflict or inconsistent with the provisions of such code; the

portion of any ordinance not in conflict with such code which regulates speed, direction of travel, passing, stopping, yielding, standing, or parking on any specifically named public street or way; any right or franchise granted by the town; any ordinance dedicating, naming, establishing, locating, relocating, opening, paving, widening, vacating, etc., any street or public way; any ordinance establishing and prescribing the grade of any street; any ordinance providing for local improvements and special assessments therefor; any ordinance dedicating or accepting any plat or subdivision; any prosecution, suit, or other proceeding pending or any judgment rendered on or prior to the effective date of said code; any zoning ordinance or amendment thereto or amendment to the zoning map; nor shall such repeal affect any ordinance annexing territory to the town.

**Section 4. Continuation of existing provisions.** Insofar as the provisions of the municipal code are the same as those of ordinances existing and in force on its effective date, said provisions shall be considered to be continuations thereof and not as new enactments.

**Section 5. Penalty clause.** Unless otherwise specified in a title, chapter or section of the municipal code, including the codes and ordinances adopted by reference, whenever in the municipal code any act is prohibited or is made or declared to be a civil offense, or whenever in the municipal code the doing of any act is required or the failure to do any act is declared to be a civil offense, the violation of any such provision of the municipal code shall be punished by a civil penalty of not more than five hundred dollars (\$500.00) and costs for each separate violation; provided, however, that the imposition of a civil penalty under the provisions of this municipal code shall not prevent the revocation of any permit or license or the taking of other punitive or remedial action where called for or permitted under the provisions of the municipal code or other applicable law. In any place in the municipal code the term "it shall be a misdemeanor" or "it shall be an offense" or "it shall be unlawful" or similar terms appears in the context of a penalty provision of this municipal code, it shall mean "it shall be a civil offense." Anytime the word "fine" or similar term appears in the context of a penalty provision of this municipal code, it shall mean "a civil penalty."

When a civil penalty is imposed on any person for violating any provision of the municipal code and such person defaults on payment of such penalty, he may be required to perform hard labor, within or without the workhouse, to the extent that his physical condition shall permit, until such civil penalty is discharged by payment, or until such person, being credited

with such sum as may be prescribed for each day's hard labor, has fully discharged said penalty.

Each day any violation of the municipal code continues shall constitute a separate civil offense.

**Section 6. Severability clause.** Each section, subsection, paragraph, sentence, and clause of the municipal code, including the codes and ordinances adopted by reference, is hereby declared to be separable and severable. The invalidity of any section, subsection, paragraph, sentence, or clause in the municipal code shall not affect the validity of any other portion of said code, and only any portion declared to be invalid by a court of competent jurisdiction shall be deleted therefrom.

**Section 7. Reproduction and amendment of code.** The municipal code shall be reproduced in loose-leaf form. The board of mayor and aldermen, by motion or resolution, shall fix, and change from time to time as considered necessary, the prices to be charged for copies of the municipal code and revisions thereto. After adoption of the municipal code, each ordinance affecting the code shall be adopted as amending, adding, or deleting, by numbers, specific chapters or sections of said code. Periodically thereafter all affected pages of the municipal code shall be revised to reflect such amended, added, or deleted material and shall be distributed to city officers and employees having copies of said code and to other persons who have requested and paid for current revisions. Notes shall be inserted at the end of amended or new sections, referring to the numbers of ordinances making the amendments or adding the new provisions, and such references shall be cumulative if a section is amended more than once in order that the current copy of the municipal code will contain references to all ordinances responsible for current provisions. One copy of the municipal code as originally adopted and one copy of each amending ordinance thereafter adopted shall be furnished to the Municipal Technical Advisory Service immediately upon final passage and adoption.

**Section 8. Construction of conflicting provisions.** Where any provision of the municipal code is in conflict with any other provision in said code, the provision which establishes the higher standard for the promotion and protection of the public health, safety, and welfare shall prevail.

**Section 9. Code available for public use.** A copy of the municipal code shall be kept available in the recorder's office for public use and inspection at all reasonable times.

**Section 10. Date of effect.** This ordinance shall take effect from and after its final passage, the public welfare requiring it, and the municipal code, including all the codes and ordinances therein adopted by reference, shall be effective on and after that date.
