

Quotations

Hubert Hamer, Administrator, USDA National Agricultural Statistics Service (NASS)

He/him pronouns

We are pleased to provide updated Census of Agriculture data to all those who serve U.S. agriculture, especially the producers who gave their time to complete the questionnaire. Census of Agriculture data tell a story. This comprehensive snapshot every five years assists data users to see trends and shifts in the industry over time and helps producers do business. Data users will notice some new data on the topics of hemp, precision agriculture, and internet access.

Barbara Rater, Director, Census and Survey Division, USDA NASS

She/her pronouns

We are excited to announce the release of the 2022 Census of Agriculture data. This incredibly rewarding milestone represents the culmination of the hard work and dedication by NASS, our partners, and the nation's producers to providing this valuable public resource.

Troy Joshua, Director, Statistics Division and Executive Director, Agricultural Statistics Board, USDA NASS

He/him pronouns

For over 180 years, the Census of Agriculture has given us an opportunity to hear directly from the producers about themselves and their operations. The more we understand, the better positioned we are to support the agricultural community that gives so much to our nation and the world.
