The historical status of the Southern Resident Killer Whales

This data was collected by the Center for Whale Research.*

* The population number cited on this website is for the general public, and is provided as an estimate only. As the number of whales in this population is constantly changing, please contact the Center for Whale Research directly prior to any publication of this estimate to receive the most current information.

Any published or broadcast reference to this population estimate must include credit to the Center for Whale Research. Thank you.
