Science

Criteria for awarding high school area credit in science:

Since all high school science courses (with lab) are awarded 1.0 high school science credits, then all college-level dual enrollment science courses (with lab) will be awarded 1.0 high school science credits.

College-level dual enrollment science courses taken without a lab component will be awarded 0.5 high school science credits.

Note: Section 1003.43(1), Florida Statutes, states that high school graduation requirements include successful completion of “three credits in science, two of which must have a laboratory component.”

Regardless of the number of science credits earned through dual enrollment, the requirement of two sciences with a lab component must be met to graduate.
