

## Per Diem Locality Rate with a Stopover Point and Multiple TDY Locations on the Same Day (JTR, par. 020310.B)

*Note: Rates used in these examples may not be current and are for illustrative purposes only.*

### Scenario:

On September 1, a traveler departed his or her PDS and procured lodging for one night at a stopover point while enroute to a TDY destination. The stopover point's locality per diem rate is \$142 (\$91/\$51). The traveler's actual lodging cost was \$68. The traveler departed from the stopover point the next morning and arrived at the first TDY location, location A. The per diem rate at location A is \$158 (\$99/\$59). This example uses the full locality meal rate. The traveler stayed 7 full days at location A. The daily lodging cost was \$102. Since the AO did not approve an Actual Expense Allowance (AEA), the traveler's reimbursement was limited. On the return journey to the PDS, the traveler went to a second TDY location, B, before returning to the PDS on the same day. The M&IE at TDY Location B is \$64.

### For USCG members only:

For the day travel ends—return day to the PDS, home or authorized delay point—the per diem rate is based on the M&IE applicable to the last TDY or authorized delay point, whether or not overnight lodging was required.
