

# Canvas Essentials Checklist

## Canvas Tip Sheet

This checklist serves as a starting point for setting up your Canvas account and designing your course in Canvas.

## **Navigation and Settings**

√Yes	Criteria	Notes
	Account is personalized to reflect your own profile picture, desired account settings, and customized notification settings.   Canvas	
	Guides: • How do I add a profile picture & How do I manage my Notification settings.	
	Course Navigation is clear and consistent (unused items are hidden	
	from student view).   How do I manage Course Navigation links?	
	Course Card image is added to provide a visual representation of the	
	subject. ■ How to I add an image to a course card?	
	Import is a tool used to bring in any previous course content or	
ш	content shared to you by others. As relevant, use the Course Import	
	tool to retrieve past content and activities.   What is the Course	
	Import Tool?	
	Course Grading Scheme is how Canvas translates percentages or	
ш	points earned into a final grade. The Canvas default is enabled and	
	should be checked or a new scheme added that matches the course	
	syllabus.   How do I view and manage grading schemes in a course?	

## **UM Canvas Template**

√Yes	Criteria	Notes
	Home Page is personalized by replacing the template information	
	with your own. It is recommended that you use one of the UM Canvas	
	Home Page templates.	
	■ How do I change the Course Home Page?	
	<b>Syllabus</b> is available for download and follows the UM syllabus	
Ш	template. ■ How do I edit the Syllabus in a course?	
	Getting Started Module is edited to reflect your specific instructor	
ш	and course information. The Instructor Information page is edited to	
	include a short video (recommended). The Introduction Forum is used	
	for community building. All unused template items are deleted.	

#### Course Design

√Yes	Criteria	Notes
	MUS Principles of Quality and Canvas Tools is consulted as a document to support quality course design and development.	
	<b>Assignment Groups</b> are created for weighted grade categories (if applicable). ■ How do I add an assignment group in a course?	
	<b>Develop Course Content</b> by consulting the UM Canvas Essentials course and/or the Canvas Instructor Guides and Videos for instructions on adding content, activities, and assessments.	
	Chunking of content allows students to engage with manageable pieces of information and activities. Leverage modules and pages (e.g. organized by units, chapters, topics, or weeks). ■ What are Modules?	
	<b>Check Alignment</b> of your Syllabus to your course assignments and your gradebook to ensure that course outcomes are met and that the sequencing is <b>logical</b> and increases in understanding and difficulty.	

### Course Finalization and Publishing

√Yes	Criteria	Notes
	Accessibility is addressed by reviewing all content (videos are	
_	captioned, images are tagged, text clues such as headings and link	
	names are used correctly). Use the Accessibility Checker to identify	
	and correct accessibility issues within the course.   How do I use the	
	Accessibility Checker?	
	<b>Link Validation</b> is used to check that all links, files, videos, and	
ш	external <b>URLs</b> are active and working.   How do I validate links in a	
	course?	
	Student and Mobile Views are tested to ensure accuracy and access	
ш	from the student role.   How do I view a course as a test student	
	using Student View?	
	Publishing your course should occur about one week prior to the	
	start date. Publish and post a course announcement to welcome your	
	students! If your course is published while you are designing the	
	enrolled users will receive email notifications for each change and	
	add (unless they have turned their notification settings off).   How	
	do I publish a course?
