Thunderstorms producing heavy rain continued to re	edevelop across southwest Fo	d County during	the late morning an	nd early afternoon producing

Inunderstorms producing heavy rain continued to redevelop across southwest Ford County during the late morning and early afternoon producing widespread significant flooding in many areas, including in Gibson City. Numerous homes and businesses suffered significant flood damage. Local officials estimated about 800 properties were affected by flooding. Most roads were closed and impassable with several feet of water across some roads. Multiple cars were stalled in flood waters with multiple water rescues. A senior citizen center was inundated with flood waters and multiple water rescues were performed to remove the residents. To the southwest of Gibson City, vegetation was flattened in many low lying areas due to the fast flowing flood waters. Rainfall amounts in Gibson City and far southwest Ford County were in the 7 to 9 inch range from late morning through early afternoon. Measured rainfall amounts included 9.33 inches one mile northeast of Gibson City; 8.76 inches in Gibson City and 7.63 inches three miles west northwest of Gibson City. During the NWS storm survey, it was discovered that several private rain gauges in Gibson City ranged between 10 to 13 inches. The property damage amount was estimated in consultation with city and local officials.

A well developed funnel cloud formed between Lee and Shabbona and was observed from multiple locations, including the air traffic control tower at the Aurora Municipal Airport.

A small shower near an outflow boundary produced a well developed funnel cloud that was observed from multiple locations, including the air traffic control tower at the Aurora Municipal Airport.

(IL-Z006) LAKE, (IL-Z104) CENTRAL COOK COUNTY

08/22/21 06:20 CST 2 0 Rip Current 08/22/21 17:15 CST 0

Direct Fatalities: M16IW, M19IW

Location

North winds produced high waves of 4 to 6 feet on southern Lake Michigan on August 22nd. A 19 year old man drowned after jumping into Lake Michigan during the morning near West Pratt Avenue in Chicago. In a separate incident around the same time, two Northwestern University students were tossing around a football at Clark Street Beach when the ball went into the water. One of the men went into the lake to attempt to get the ball but was pulled away from shore. The second man went into the water and was also pulled away from shore. Both men were rescued by first responders and survived. Later that afternoon, a 16 year old boy drowned in Lake Michigan near Waukegan.

LEE COUNTY --- 3.6 NW PALMYRA [41.89, -89.63]

08/23/21 13:59 CST 0 Thunderstorm Wind (EG 60 kt)
08/23/21 13:59 CST 0 Source: Public

Several large trees were damaged, about 100 yards east of the intersection of Penrose and Weldon Roads.

Scattered thunderstorms moved across portions of northwest Illinois during the afternoon of August 23rd producing localized wind damage.
