An EF1 tornado touched down near the intersection of county roads 5000N and 7500E. On the southwest corner of this intersection, a detached garage and steel shed were destroyed. A two foot diameter tree was snapped at the base and several other trees had large branches broken off. Debris from this location was lifted and carried approximately 100 yards into the field across the road. The tornado also damaged property on the northeast corner of the intersection. A corn crib and a shed which served as a blacksmith forge were both destroyed. Debris from these buildings was scattered to the northeast in a narrow path approximately 800 yards long. Corn stalks in a field to the northeast appeared to have been flattened and twisted by this tornado.
