WEATHER FORECAST OFFICE

# Coastal Martin County Heavy Rain and Flash Flooding Event May 24, 2020 through June 6, 2020

Observations below were collected from 8 AM May 24 through 8 AM June 6. The majority of rain fell in three separate events, mostly due to training bands of storms across coastal Martin County.

This map image is based on interpolation of observed values and radar estimates. This information is not official and should be considered an estimation.
