Service Change Notice 22-23
National Weather Service Headquarters Silver Spring MD
1250 PM EST Mon Feb 7 2022

To:        Subscribers:
           -NOAA Weather Wire Service
           -Emergency Managers Weather Information Network
           -NOAAPort
           Other NWS Partners, Users and Employees

From:      Ben Kyger
           Director, NCEP Central Operations

Subject: Modifying Application Programming Interface Response Headers on
February 7, 2022

On February 7, 2022, beginning at 1330 Coordinated Universal Time (UTC),
the Application Programming Interface (api.weather.gov) was modified to
eliminate the "Last-Modified" header in responses to requests from the
following Uniform Resource Locators (URLs):

https://api.weather.gov/gridpoints/<wfo>/<x,y>
https://api.weather.gov/gridpoints/<wfo>/<x,y>/forecast
https://api.weather.gov/gridpoints/<wfo>/<x,y>/forecast/hourly

Where <wfo> is a valid Weather Forecast Office three-letter string and
<x,y> are x and y gridpoints.  For example, for WFO Baltimore/Washington
in Sterling, VA:

https://api.weather.gov/gridpoints/LWX/82,75
https://api.weather.gov/gridpoints/LWX/82,75/forecast
https://api.weather.gov/gridpoints/LWX/82,75/forecast/hourly

This header change is temporary and will be added back in a future
release of the application.

For questions regarding the operating aspects, please contact:

Josh Huber
NCEP/NCO
College Park, MD
idp-support@noaa.gov
