 Severe, Fire, Public, and Winter Weather Services Branch

Subject: Updated: Soliciting Comments on the Experimental Standardized
Weather Forecast Office (WFO) Avalanche Weather Webpage at 18 WFOs
through April 30, 2025

Updated to extend comment period through April 30, 2025.

The NWS is soliciting comments on the experimental standardized WFO
Avalanche Weather Webpage through April 30, 2025 at 18 WFOs. These WFOs
are: Gray, ME; Burlington, VT; Albuquerque, NM; Riverton, WY; Boulder,
CO; Pocatello, ID; Salt Lake City, UT; Pendleton, OR; Boise, ID; Great
Falls, MT; Las Vegas, NV; Spokane, WA; Medford, OR; Missoula, MT;
Portland, OR; Anchorage, AK; Fairbanks, AK; and Juneau, AK. The Boulder,
CO office will produce the webpage for all of Colorado.

A standardized version of an avalanche weather webpage ensures each local
WFO webpage is consistent with one another, thereby increasing the
visibility and accessibility of NWS avalanche weather information.

The webpages will be available at the following links:

National Landing Page:
